MEMBER OF THE ASSOCIATED PRESS

Democrat Established 1868. Vol. XL.  
Sentinel Established 1880. Vol. XXVII.

TWO PARTS—SEDALIA, MISSOURI, SUNDAY MORNING, MAY 30, 1909—PART ONE.

VOL. 3, NO. 128. PRICE FIVE CENTS.

## FAST MAIL LEFT TRACK

MISSOURI PACIFIC NO. 7, WEST-  
BOUND, DERAILED NEAR  
LITTLE BLUE.

## BY MIRACLE NO PERSONS WERE KILLED

W. J. Menefee, of Sedalia, One of  
Passengers, Was Slightly Injured  
—Six Mail and Baggage  
Cars Turned Over.

Missouri Pacific fast mail train No.  
7, westbound, in charge of Conductor  
Williams, with Engineer George C.  
McClure in the cab of engine No.  
5502, was derailed at a point one and  
one-half miles west of Little Blue at  
8:45 o'clock Saturday morning.

W. J. Menefee, a grocer, of West  
Main street, this city, and Joseph L.  
Pfautsch, a mail clerk on the train,  
were the only people injured, their in-  
juries being trivial.

The locomotive and five mail cars  
and one baggage car jumped the  
track, running along the ties for a  
distance of 200 feet. The cars over-  
turned, but the engine remained up-  
right, while the combination Pullman  
sleeper and observation car remained  
on the track.

The train was running forty miles  
an hour. The weakened condition of  
the track, due to recent rains, is at-  
tributed as the cause.

The wrecking crew was sent from  
Kansas City, clearing the track twelve  
hours later. Not a coupling on the en-  
tire train was broken, and the ties for  
a distance of 100 yards were cut  
as smoothly as if sawed.

Superintendent A. J. Alexander, of  
this city, hurried to the scene and su-  
perintended the clearing of the wreck-  
age. Where the mail cars left the  
track the rails looked as if they had  
been heated and bent, being twisted  
in such a manner.

Mrs. Margaret Clifford, of 406 West  
Third street, received notice Sat-  
urday of the death of her youngest son,  
James Clifford, at his home at Tor-  
reon, Mexico, last Monday night.

Mr. Clifford was 36 years old, and

T. Clifford, died only a few weeks  
ago.

The L. B. N. girls gave a very de-

The wedding will be a quiet affair,

The bridal couple will leave that

energetic young men, with a legion of  
friends who will learn of the event  
with pleasure.

Miss McCubbin is a graduate of the  
Sedalia High school, class of 1905,

blessings of a happy married life.

## GERMANY IS "IMPERTINENT"

In Advising Us in Regard to Tariff  
Legislation.

Associated Press.  
Washington, May 29.—Senator Al-  
dritch today denounced as "impertin-  
ent" the efforts of the German gov-  
ernment to influence American tariff  
legislation by supplying information  
as to the wages paid in Germany.

Mr. Depew intimated that German  
manufacturers are striving to influ-  
ence congress through the German  
government and American importers.

## TWO IMPORTANT POINTS WON BY WHITES

Three Other Questions in Dispute to  
Be Settled by Arbitration—One  
Hundred Men Had Railroad  
"Bottled Up" Ten Days.

Hearst News Service.

Atlanta, Ga., May 29.—At 2:15  
o'clock this afternoon Chairman  
Knapp and Commissioner of Labor  
Neill announced that they had brought  
about a settlement of the firemen's  
strike on the Georgia railroad.

It is understood the white firemen  
won practically all their contentions  
and gained an excellent strategic po-  
sition.

The strike had been in progress for  
over ten days, and for a week the  
firemen, with less than 100 men on  
strike, had the entire system bottled  
up.

A conference is being held tonight  
to adjust the differences that have  
not as yet been settled.

It is conceded the firemen have won  
two important points in their conten-  
tions, namely, elimination of negro  
firemen from terminals and the rein-  
statement of all brotherhood men laid  
off because of reduction in the force.

The three points of arbitration  
still to be decided are:

First, whether negro firemen shall  
be dispensed with entirely.

Second, if not dispensed with en-  
tirely, what percentage of blacks  
shall be employed?

Third, the question of seniority of  
negro firemen over white.

At 6 o'clock tonight train service  
was resumed over the entire system,  
and traffic was moving with all the  
dispatch possible.

Within two days the congested con-  
ditions on the line will be entirely re-  
lieved.

nell fourth, with 20 1-2 points. Michi-

## "KATY" NOT IN CONTEMPT

STATE SUPREME COURT SATUR-  
DAY REFUSED TO ISSUE  
A CITATION.

## JUDGE IN ST. LOUIS HAD REQUESTED IT

Alleged That by Putting Three-Cent  
Fare Into Effect Road Was  
Guilty of Violating a Re-  
cent Injunction.

Associated Press.

Jefferson City, Mo., May 29.—The  
state supreme court today refused to  
issue a citation for contempt against  
the Missouri, Kansas and Texas Rail-  
road Co., as asked by Judge Williams,  
of the St. Louis circuit court.

The St. Louis jurist's attorneys urged  
that the road had placed itself in  
contempt of court by putting into ef-  
fect a passenger rate of 3 cents a  
mile, in violation of the injunction  
issued by Judge Williams, which in-  
junction is involved in the prohibi-  
tion suit pending in the supreme  
court.

## STREET CAR MEN STRIKE

All of the Union Men in Philadelphia,  
About 2,500, Are Out.

Associated Press.

Philadelphia, Pa., May 29.—Practi-  
cally every union street car man in  
the city quit work today, following a  
refusal of their demands for wages  
of 25 cents an hour and a settlement

the supreme court. Mr. Harlan was  
one of the groomsmen. Mr. Crittenden  
was 24 years old at the time of  
his marriage, and his family recalls  
having heard him say that he had to  
borrow \$65 to pay wedding expenses.

In 1857 Mr. Crittenden and his  
young wife left Kentucky, settling in  
Lexington, Mo., where he began the  
practice of law as a partner of Judge  
John A. S. Tutt. As lieutenant col-  
onel of the Seventh Missouri militia,  
Mr. Crittenden served in the Civil  
war under Col. John F. Phillips, now  
judge of the United States district  
court here.

When the militia was mustered out  
in 1865 Mr. Crittenden went to War-  
rensburg, where he again entered the  
practice of the legal profession with

## CYCLONE IN OKLAHOMA

FIRST REPORTS STATED THAT  
ALL SECTIONS OF STATE  
SUFFERED.

## ONLY ONE FATALITY IS RECORDED

All the Streams Are Raging Torrents  
and Fear Is Felt for the Safety  
of People Living in the  
Lowlands.

Hearst News Service.

Oklahoma City, Ok., May 29.—Ter-  
rible destruction by cyclones is re-  
ported throughout the state of Okla-  
homa, over twenty being killed and  
half a hundred injured.

Twelve deaths are reported at De-  
pew and eight or more at Keywest.

## Only One Known to Be Killed.

Oklahoma City, Ok., May 29.—With  
the wires working badly, it is impos-  
sible to get the exact details of the  
cyclone at Dewey and Key West, but  
it is known that there is no truth in  
the report that twenty-two are killed.

The only known dead is Charles  
Brannan, an employe of the Okla-  
homa City Gas and Electric Co., who  
was crushed to death in a hole at  
Dewey.

Mrs. J. L. Hart's back was broken,  
and it is believed she cannot recover.

All the streams in the stricken dis-  
tricts are raging torrents tonight and  
fears are entertained that many per-  
sons will be drowned in the low-  
lands before they can escape to the  
hills.

## MRS. HENDERSON IS DEAD

After Long Illness and Much Suffering  
She Passed Away Last Night.

Mrs. Mary Henderson, wife of Geo.  
S. Henderson, a barber at the O-K  
barber shop, died from a complica-  
tion of diseases at her home, 709 East  
Fifteenth street, at 9 o'clock last  
night.

Mrs. Henderson was 36 years old.  
She is survived by her husband and  
the following brothers and sisters:  
Mrs. Lizzie Beaton, Mrs. Lottie War-  
ren, both of Pomona, Cal.; Mrs. S.  
R. Payne and Tom Garrett, both of  
Sedalia, and Charles Garrett, of Jef-  
ferson City.

Another brother, Walter C. Garrett,  
died suddenly less than a fortnight  
ago.

Mrs. Henderson had been ailing for  
years and recently her condition be-  
came alarming. At the time of her  
brother's death she was not apprised  
of the fact, owing to her critical con-  
dition, and shortly afterward she grew  
unconscious, remaining so up to the  
time of her demise.

Mrs. Henderson, since childhood,  
had belonged to the First Congrega-  
tional church, but about a year ago  
affiliated with the First M. E. church.  
Since that time she has been a mem-  
ber of that church choir.

Funeral services will be held at the  
First M. E. church at 2:30 o'clock to-  
morrow afternoon. The Rev. Grant W.  
Robbins, the pastor, will officiate, and  
burial will be in Crown Hill cemetery.

Deceased also held membership in  
Queen City hive No. 7, L. O. T. M.

## Delivery of Mail Memorial Day.

Monday, May 31, will be observed  
as Memorial day at the postoffice.  
Letter carriers will make the regular  
morning deliveries and collections,  
as on week days, but there will be no  
afternoon deliveries or collections.  
The regular night collections will be  
made.

The money order and registry di-  
visions of the postoffice and the gen-  
eral delivery will open at 8 a. m. and  
close at noon.

## DEATH AND DESTRUCTION

NORTH DAKOTA IN THE GRIP  
OF CYCLONE SATURDAY  
AFTERNOON.

## IT IS KNOWN THAT SEVEN ARE DEAD

From All Parts Comes Tales of Cruel  
Damage Done by Storm—Coun-  
try Districts Isolated and  
Death List May Be Larger

Hearst News Service.

Grand Forks, N. D., May 29.—Seven  
are known to be dead, many dying  
and over a score seriously injured as  
the result of a cyclone which swept  
over North Dakota this afternoon.

The storm was especially severe  
at Langdon, where the residence sec-  
tion of the city was practically wiped  
out of existence.

Four were killed and twenty in-  
jured at that place.

The storm started at 6 o'clock and  
lasted for about five minutes, during  
which forty residences were de-  
stroyed.

The Methodist church was raised  
from the ground and carried many  
feet away, and two huge elevators  
were crushed into kindling wood.  
The financial loss there is estimated  
at \$150,000.

At Ypsilanti three persons are  
dead, two are dying, and many others  
injured.

At Jamestown a whole section of  
the railroad roundhouse was demol-  
ished.

To the north nearly all the tele-  
phone wires are down and it is im-  
possible to learn how some of the  
towns and country districts fared.

It is feared that the death total  
will be increased greatly by later re-  
ports.

At Lakota there was a terrific elec-  
tric storm and several buildings  
were struck, although the damage is  
not heavy.

At Wahpeton the state fair build-  
ings were badly demolished.

At Devil's Lake the wires of the  
Great Northern railroad were blown  
down and communication to the west  
cut off.

## YOUNG HERO LOST LIFE

Rescued His Companion From Water,  
Then Sank and Perished.

Hearst News Service.

Canton, Ill., May 29.—Russell Cass  
aged 14, son of John Cass, a promi-  
nent farmer in the northern part of  
this county was drowned in a suc-  
cessful attempt today to rescue a  
companion, Gaylord Beatty, from a  
pond near that place.

Beatty was in swimming and began  
suddenly to sink in six feet of water.  
Cass leaped from the bank, fully  
dressed and pushed Beatty toward the  
shore, where others aided him out.

In the next moment Cass sank and  
was drowned.

## GOT A VERDICT FOR \$5000

Hon. W. D. Steele Was the Attorney  
for the Plaintiff.

W. D. Steele obtained a verdict  
for \$5,000 in the Cooper county cir-  
cuit court at Booneville Saturday in  
the damage suit of Mrs. Gallagher  
against the City of Tipton, wherein  
the plaintiff had sued for \$5,000 for  
personal injuries. A. L. Shortridge  
represented the defendant.

The jury deliberated only ten min-  
utes. This is the second time the  
case has been tried. On each occa-  
sion a verdict was returned in favor  
of the plaintiff.

will be extended to all who  
gather to commemorate the  
event.

There are ex-Sedalians every-  
where, but they will all be here  
again at the Home Coming.

## ABOVE ALL ELSE, A GOOD BILL.

It is gratifying to learn that con-  
gress is likely to complete the tariff  
bill by July 1, but it would be infinite-  
ly more so to know that it is to be  
a good bill.

There has been much talk in the  
newspapers, not excluding some of  
the most prominent republican pub-  
lications, of President Taft's vetoing  
the tariff bill if it did not make good  
the pledges of the party, but such  
predictions are gradually subsiding  
and we fear the president is yielding  
to the blandishments of Aldrich and  
the rest of the highbinders in the  
senate.

From a purely democratic stand-  
point it would be gratifying to see  
the president sign a bill which makes  
a mockery of the voters and will so  
far outrage their feelings as to se-  
cure the condemnation of the people  
at the poles.

From the broader standpoint of pa-  
triotism and philanthropy, in the  
best sense of the word, however, it  
will be deplorable if anything resem-  
bling the senate tariff bill is written  
on the statutes. Whatever the bill  
may be that Mr. Taft signs it will re-  
main on the statute books for years.  
This is inevitable. A democratic ma-  
jority may be elected to the house,  
but it will be a long time before the  
political complexion of the senate will  
be changed, and if the new tariff law  
robs the consumers for certain favor-  
ed manufacturers that robbery will  
go on for a long time. Therefore,  
even at the loss of political advan-  
tage, we hope to see the best possible  
tariff law enacted.

Incidentally, too, we should be sor-  
ry to see the president of the United  
States, regardless of the party which  
elected him, approve a measure of  
"perfidy and dishonor," or yield one  
iota to the men who are blatantly de-  
claring that "there is no consumer."

## REAP THE WHIRLWIND.

Immediately after the republicans  
enacted the McKinley tariff they were  
beaten in the congressional elections  
worse than ever before in their his-  
tory, and it ought not to be forgotten  
that they were defeated in four-  
fifths of the congressional elections  
from 1874 to 1892.

After two years' experience with  
the McKinley tariff the country elect-  
ed a democratic president, several re-  
publican states giving him their elec-  
toral votes. This record gives signifi-  
cance to the prediction of James J.  
Hill to a republican congressman of  
Minnesota:

"If you republicans fail to keep  
your platform pledges on the tariff  
you will be the minority in the next  
house. The people were promised  
downward revision."

Since 1894 the currency has crowd-  
ed the tariff out of the first place in  
the public mind, but that is not like-  
ly to cut any figure in the next elec-  
tion, and on the tariff the people are  
with the democratic party.

## THE AWAKENING.

About three months ago a great  
Chicago merchant named Selfridge  
opened a great department store in  
London to the accompaniment of  
page advertising in the London news-  
papers.

The advertising, in the estimation  
of London shop keepers was ruinously  
expensive. Latest advices from across  
the water indicate that Selfridge isn't  
ruined yet. The store has been crowd-  
ed daily; the sales have been beyond  
the new store's fondest expectations;  
fifteen other buildings in the neigh-  
borhood have been acquired with a  
view to extensions, and erstwhile  
skeptical rivals are beginning to try  
the page ad tonic to keep their res-  
pective businesses afloat.

The obvious moral is that in the  
advertising field, as elsewhere, big  
guns in the hands of competent per-  
sons bring down the game.

Senator Joe Bailey, of Texas, ex-  
plaining his vote for a tariff on lum-  
ber, said that the democratic nation-  
al convention had no right to declare  
in its platform for free lumber; that  
such a declaration was an interfer-  
ence with the legislative functions of  
democratic senators and representa-  
tives and that he did not propose to  
be bound by the party platform. It a  
national party convention has no right  
to bind the party which it represents,  
who has? And if the national platform  
can not be taken as an indication of  
the views and purposes of the party it  
would be interesting to know what  
can.

A woman is always waiting for a  
husband. If she is single, she is wait-  
ing for him to propose; and if mar-  
ried, she is waiting for him to come  
home.

Cures for that tired feeling are be-  
ing advertised very widely just now.  
A couple of quarts could be used to  
advantage in many places.

Many a man boasts of success who  
never took a chance in his life, but  
waited until he had a dead sure thing  
in his hands.

The girl who is ambitious to make

The readers of this paper will be pleased  
to learn that there is at least one dreaded disease  
that science has been able to cure in all its  
stages, and that is Catarrh. Hall's Catarrh  
Cure is the only positive cure known to the med-  
ical fraternity. Catarrh being a constitutional  
disease, requires a constitutional treatment.  
Hall's Catarrh Cure is taken internally, acting  
directly upon the blood and mucous surfaces of  
the system, thereby destroying the foundation  
of the disease, and giving the patient strength  
by building up his constitution and assisting  
nature in doing its work. The proprietors have  
so much faith in its curative powers that they

fails to cure. Send for list of testimonials.

It is a fundamental law of

Man would accomplish very

necessities of life—they never  
think of the future or even try  
to provide for their own com-  
fort, when old age shall at last  
cut off their earning power, as  
it surely will.

## GUILTY MEN IN CUSTODY

UNION PACIFIC ROBBERS HID  
IN A SCHOOL BUILDING  
IN OMAHA, NEB.

## REGISTERED MAIL POUCHES ARE FOUND

Two of Three Suspects Arrested  
Identified by Engineer and Fire-  
man of the Union Pacific's  
Overland Limited.

Omaha, Neb., May 29.—Fred Tor-  
tenson and W. D. Woods were last  
night identified by Engineer Mickel-  
john and Fireman Prawl as the men  
who crawled over the tender of their  
engine Saturday night and forced  
them to stop the Union Pacific Over-  
land limited. The engine men arrived  
in the city last evening, and were at  
once given an opportunity to look the  
suspects over.

Engineer Mickeljohn was especial-  
ly sure of Tortenson, because of cer-  
tain peculiarities in his physical  
make-up. He also declared he was  
equally sure about Woods. Several  
school children also identified all the  
prisoners, including Gordon, as men  
they had seen in the vicinity of  
Brown Park school Sunday and Mon-  
day.

A laborer living near the scene of  
the hold-up identified two of the sus-  
pects as men he had seen examining  
the ground in that vicinity two or  
three days before the robbery.

Developments of Friday had their  
climax in the discovery in the attic of  
Brown Park school in South Omaha  
of six large and two small registered  
mail pouches, the contents of which  
had been rifled.

Following the arrests Thursday  
night in the vicinity of the school of  
three suspects as they were approach-  
ing a point where they had hidden re-  
volvers and other material a hundred  
secret service men, private and city  
detectives began to search the local-  
ity for further evidence.

Mrs. Nora Freeman, one of the  
teachers, noticed that a ladder used  
for reaching the attic of the building  
and which is usually suspended from  
the ceiling by a rope, had been dis-  
placed, and the janitors were called.  
Lanterns were produced and two men  
crawled into the attic. They were as-  
tounded to find eight registered mail  
sacks, two rain coats, a long top  
coat and a pair of overalls. The post-  
office authorities were notified and  
made a hurried trip to the school  
building.

An examination of the contents of  
the packages showed that every letter  
had been torn open and the con-  
tents of value removed. There were  
several jewelry packages, the con-  
tents of which had been taken by the  
robbers.

There is every indication that the  
robbers took the packages to the re-  
treat near the school Saturday night  
and removed them to the school house  
attic Sunday night. They secured en-  
trance through the basement window,  
went up the stairway to the main cor-  
ridor and into the attic by means of  
the ladder. They were secure from  
detection in the attic which is dark,  
and were able to examine the con-  
tents of the pouches at their leisure.

Search of Tortenson's room on Fif-  
teenth street furnished some valu-  
able information. A photograph of the  
three men under arrest and another  
man and a woman, taken at a Denver  
photograph gallery, furnished the first  
authentic information of where the  
men came from.

The photograph was taken on a  
postcard and showed the five persons  
sitting behind a false automobile  
front. Woods being in the position of  
the chauffeur. The headlights of the  
car showed the number 2315, and the  
picture was made at 1513 Curtis  
street, Denver, Col.

The police found in the school house  
attic near the pouches a small souve-  
nir mirror, on the reverse side of  
which was a picture of the Spokane  
Union station. This leads the postof-  
fice people to believe the same men  
might have held up the Northern Pa-  
cific train near that city.

Promptly at 2 o'clock tomorrow af-

## Liked to Do Man's Work.

Because of the declaration of 17-  
year-old Annie Bugenorth of Burling-  
ton, Conn., that she wore male attire  
because she liked it, her father, Au-  
gust Bugenorth, a farmer, has been  
saved from going to jail. He was ar-  
rested on complaint of neighbors,  
who insisted that he forced the garb  
and the toll upon his daughter to save  
the wages of a hired man. The father  
was followed to the lock-up by his  
daughter in a high state of rage, and  
after explanation before the local  
justice of the peace, the father was  
discharged. The girl, clad in a rough  
working suit, overalls and a sombrero,  
said that she could not be happy  
without continued life in the open air  
and plenty of work.

"I can make a man's wages," she  
said; "and I can have all a man's  
fun. I'm not doing any harm and I  
want to be let alone. There are not  
men enough in this town, anyway.  
I'm just stepping out of the way to  
make room for the girls who are so  
crazy about getting married."

## The Painful Way.

"The late Dr. W. T. Bull," said a  
Philadelphia physician, "had, for a  
surgeon, unusual knowledge of drugs.  
His knowledge of narcotic drugs  
helped on his surgical success. To a  
patient of Dr. Bull's an operation was  
almost a pleasure.

"He was once talking about the  
painful drugs that suicides take, when  
there are so many deadly drugs of an  
actually agreeable nature.

"He said one of his patients years  
ago tried suicide unsuccessfully. In  
the magistrate's court Dr. Bull testi-  
fied in the man's behalf, and the mag-  
istrate said:

"Well, young man, since you seem  
to have a good character I'll let you  
off on condition that you promise not  
to repeat this experiment."

"I'm not likely to repeat it," said  
the reclaimed suicide earnestly. "No-  
body who has tried Rough on Rats  
ever tries it again."

past six or seven at night. The chil-

the school on trams and will have  
three meals a day there. The school  
will be open for five days a week for  
20 weeks, and voluntary contributions  
will be invited toward the cost of the  
meals provided. The object is to im-

### Timber the Ore Mined Here.

One of the most curious mines in the world is in Tongking, China, where, in a sand formation at a depth of from 12 to 20 feet there is a deposit of stems of trees. The Chinese work this mine for the timber, which is found in good condition, and is used in making coffins and troughs and for carving and other purposes.

### Stromboli's Spasms.

Stromboli, in pouring out streams of lava, is playing a most unusual part. For the remarkable character of this aeolian isle is that it vomits flame persistently and cinders spasmodically. The Lighthouse of the Mediterranean has been known to stick to its function of torch-bearer (without dropping an ounce of tar) for the space of 2,000 years. Whenever the tiny, irregular eruption takes place the stones drop back again into the crater. While the ancients regarded Stromboli variously as the smithy of Vulcan and the headquarters of Aeolus, the men of the Middle Ages looked upon it as the main highway to purgatory.

### How It Happened.

## OLDSCHOOLANDCHURCH

THAT OF SACRED HEART PARISH TO BE RAZED DURING PRESENT WEEK.

WORK IS TO BEGUN TOMORROW MORNING

This Is Preliminary to the Erection of a \$5,000 Home for the Sisters of the Precious Blood by September 1.

Carpenters will tomorrow begin the work of tearing down the Sisters' home of Sacred Heart church, on West Third street, preparatory to the erection of a new \$5,000 dwelling. As soon as the building is dismantled work on the new dwelling will be begun.

The accompanying picture of the building to be razed is a good one. The structure was erected and dedicated in 1882, during the month of

Sacred Heart Sisters' Home.

October, and was used for church and school purposes until the new church building was erected and dedicated, in April, 1893.

The late Rev. B. Dickman was pastor of the first congregation, and also the head of the school at that time. The charter members of the congregation were as follows:

Messrs. Charles L. Keck, Henry Schaffer, Joseph Burger, H. H. Meier, Frank Lorschach, Peter Meyers, Alexander Kipping, John Young, Joseph Klink, George C. Deckman, P. R. Myers, Caspar Lix, Joseph Lix, Joseph Patt, George Altemueller, Peter Rast, Mrs. Binder, Henry Rottler, Herman Loos, Caspar Kruse Mrs. Phil Pfeiffer, Mrs. Rogers, Mrs. Audler, Michael Neckermann, Mrs. Hanpeter, Frank Van Hoff, Mrs. Brockschmidt and Mrs. Wagner.

Much of the material in the building to be razed will be utilized in the erection of the new \$5,000 brick home for the Sisters of the Precious Blood, to be located just south of Sacred Heart church, on Monticau avenue.

Want Ad in Democrat-Sentinel Was Successful in Finding Woman.

"If Mrs. Mary J. Mason, whose address some months ago was South Engineer street, Sedalia, Mo., is alive, can prove her identity and will communicate with 825 Webster street, Springfield, Mo., she will hear something of interest to her."

Mrs. Mason, referred to in the article, is the wife of Thomas Mason, a street car motorman for the Sedalia Light and Traction company, residing at 705 South Engineer avenue.

She has no idea what the advertisement can mean, but is inclined to think it will locate a missing sister, who has not been heard from for fifteen years.

## THE EARTH CAVED IN ON HIM

John Mitchell Had a Narrow Escape From Death.

John Mitchell, while employed at digging a ditch for J. L. Cartwright, fifteen miles northeast of Sedalia, late Friday evening met with a rather exciting experience, but escaped injury.

He was working on Mr. Cartwright's farm when a 15-foot ditch began to cave in. The dirt covered Mitchell's body as high as his neck, and but for his cries, which attracted the attention of Mr. Cartwright and others, he might have smothered to death.

When the dirt began to cave in Mr. Mitchell screamed for help. Mr. Cartwright, Will Stewart, John Gray, of Idaho, and George Spears ran to his assistance, rescuing him before his body had been completely submerged.

## THE BUTTONS ARE HERE

Home Coming Reminders Are Now Ready for Wide Distribution.

The Home Coming buttons have arrived and are now ready for distribution Secretary Stinson, of the state fair, having charge. Every business man in Sedalia and others who can use them to advantage can get all they need by applying at the office of Mr. Stinson. They are urged to call and get the buttons in circulation without delay.

Fifty thousand were ordered and it is hoped that each one will very soon be worn by some one interested in Sedalia and the Home Coming event.

Those securing them are asked not to waste them, as they are costly, but to place them where they will do the most good.

The Root of All Good.

Will Staley Can Vote Now.

Will Staley a son of A. J. Staley, of East Third street celebrated his twenty first birthday anniversary Saturday,

and in consequence of the event was receiving the congratulations of his friends on being a man.

An Apology.

Little Jim and Pat, the gardener, had been great pals, and when Pat went back to the "Old Sod" to end his days, and slow-witted Dutch Jan took his place, Jim was a very unhappy kiddie. After sundry unsuccessful attempts to interest Jan in his small affairs he waxed wroth, and one morning his father heard a tempest in the garden, culminating in "Oh Jan, you're such a fool!" Father took matters in hand at this point and an instant apology was next in order. Jim rebelled, but finally calmed his ruffled feelings and went to the agrieved gardener, more in sorrow than in anger, with: "Jan, I—I'm awfully sorry you're a fool!"

Lannoiak Shark.

An Australian paper records the capture of a shark 15 feet six inches long and seven feet girth, whose contents included a full-sized porpoise and another shark five feet long.

Deputies Are Sworn in.

Sixteen deputy county assessors under County Assessor Phil Sullivan were sworn into office by County Clerk M. L. Imhoff Saturday. Deputy Wasson, of Longwood and Heath's Creek, was the only absent deputy.

Well 3,310 Feet Deep.

The record of the deepest well in the world is claimed by France. Situated at Ronchamp (Haute-Saone), the Buyer oil well is said to be the deepest that has ever been sunk for industrial purposes. It reaches a depth of 3,310 feet. The temperature at the bottom of the well is not less than 115 degrees Fahrenheit when it is 50 degrees Fahrenheit at the mouth of the well. Apart from wells, the deepest boring on the earth's surface is probably that of the Parusowitz mine, in Upper Silesia. It attains a depth of 6,408 feet.

## ANOTHER HOME-COMING

Boarding House Landlady Will Welcome All Former Guests.

Mrs. J. T. Curry, a well known boarding house keeper of 423 South Park avenue, has inaugurated a unique plan for the entertainment and enjoyment of former boarders, which promises to be greatly appreciated by all who are to take part.

Since establishing her boarding house two years ago, Mrs. Curry has boarded about fifty-five different men. Nearly all these have now left Sedalia, being scattered to the four parts of the country.

Recently she decided to hold a "home-coming" celebration and set Aug. 7 and 8 as the dates for the home-coming of the fifty-five boarders, the majority of whom have accepted invitations to return here on those two days to take part in the celebration.

Sumptuous meals will be served to the guests and the intention of Mrs. Curry is to arrange a special program for their enjoyment while in the city.

### Not a Question of Ideas.

"I think," said Miss Cayenne, "that in the course of time we shall be communicating with Mars."

"What of it?" inquired the professor. "We won't be able to exchange any ideas of importance."

"Perhaps not. But the conversation at teas and receptions should fortify us for a little disappointment like that."

## RIVERS THAT MAKE DAMASCUS

Situated in Desert, Town Would Be Uninhabitable Were It Not for These Two Streams.

The situation of Damascus is remarkable—she stands isolated on an oasis of the vast desert which everywhere hems her in. You may see from Damascus the sunset first touch with purple the low western hills 25 miles away. These hills mark the beginning of the great desert—beyond them there is nothing but a rolling waste and the long roads to Palmyra and Bagdad. The permanence and prosperity of Damascus are due to the presence of two rivers, which have converted this spot of the dreary, desolate and uninhabited desert into a smiling and well watered plain. The Pharrar approaches only within seven miles of Damascus, but by means of canals and aqueducts sends its life-giving waters to the gardens of the city. The Abana is the stream from which the city's main supply of water is obtained. Minerva like, it springs full born from the base of a perpendicular rock at Ain Fijih, in the heart of the Anti-Lebanons, and runs a course of ten miles in a gorge, a large river 20 to 30 feet wide and four feet deep, its waters always fresh and ice cold, casting out branches everywhere, permeating every nook and corner of the city, until, as one has said: "Literally, there is scarce a street, bazaar, khan, courtyard or dwelling house which has not its marble or stone fountain supplied directly by the Abana itself." Thus, the Abana, not fruitlessly wasting her waters on that thirsty land, saves them in her narrow gorge till she can fling them well out on the desert, and extends all her life at once in the creation of a single city.—Biblical World.

The address by the president, Jerome Hogan, would have done credit to a High school graduate.

The original song, introducing the class, was beautifully rendered and highly applauded. This song introduced each member of the class individually to the audience.

The class history was very interesting and well read by Miss Margaret Letts.

The Little A B C song was artistically rendered by Rexford Gray, Harry Holcroft and Edgar Berry.

Ray Staats' composition on "The Alphabet of Summit No. 8" was highly appreciated.

The dialogue rendered by Claude Mock and Iretta Bennett was enthusiastically applauded.

Rexford Gray's reading was more than a dream; it was a bright reality, and did credit to that little gentleman.

The class poem was very clever and well rendered by Miss Adele Freese.

The advisory was excellent, showing much thought on the part of the composers, and was well rendered by Miss Hazel Manker.

Summit's male quintette deserves special mention, as their selections were entertaining and much appreciated.

The "hit" of the entertainment was "The Wood Dealer," composed by Miss Lucile McVey, and rendered by Masters Hartley McVey and Jerome Hogan and Miss Josephine Milburn. "Johnny's History Lesson," read by Clarence Boult, was highly appreciated.

Misses Jessie Keyton and Rose McVey delighted the audience with a dialogue, "The Backward Child."

Mr. Fred Miller should be complimented for the manner in which he read the class resolutions.

Edgar Berry delighted the girls of the class by singing one of his favorite selections, "She Stoops to Conquer." His musical ability was praised by all.

Miss Mary Hopkins' rendering of the class paper was excellent and exceedingly entertaining.

Masters Harry Holcroft and Edgar Berry did themselves justice on "The Rival Orators."

Master Rexford Gray, dressed in Chinese costume, and wearing a "cue," entertained the audience in a charming manner by singing "Little Ahe Sidd."

The class prophecy was excellently composed and read by Miss Eva Setliff.

In the class will Miss Nettie Peck willed the charming Summit faculty all of the class of 1909's earthly possessions.

The class spirit was excellent. After the class will, the president presented Miss Lydia Montgomery a beautiful silver jewel box, with the "love and best wishes" of the class of 1909.

This class did credit to the following teachers: Misses Ella Cousley, Anna Wills, Mayme Wilson, Grace Collins, Dora Phelan, Martha Schwarz, Ada Lee Griffith and Lydia Montgomery.

Every musical number by the class was well rendered and did credit to the school. Parents and teachers, as well as the members of the class, should be justly proud of the success of the Class day exercises.

## SMITHTON BEAT SEDALIA

Cab Drivers' Ball Team Defeated by a Score of 6 to 2.

The baseball material of the Sedalia Cab Drivers' union, under the captaincy of "Hayde" Mason, with George Woods playing a prominent part, went to Smithton Saturday to cross bats with the Smithton Sluggers during the afternoon.

Homan and Mason were on the firing line for Sedalia, while Stoble of Smithton was the star of the game. Sedalia's slab artists were well equipped with all the twisters and benders required to puzzle the batters, but in spite of all that the Smithtonites crossed the plate six times to two measly runs made by Sedalia.

Gunder and Halre composed Smithton's battery.

The game was interesting all the way through. Woods played a good game, likewise other members of the team, but with all their skill and experience, they proved unequal to the task of administering a defeat and returned home last evening, defeated but not disgraced.

## NELSON WHIPPED HYLAND

After One of the Fiercest Battles in Ring History Dane Won.

Hearst News Service.

San Francisco, May 29.—Batting Nelson knocked out Dick Hyland in the twenty-third round of their scheduled forty-five round bout in Croft's Arena today, after one of the most vicious fights in the history of the ring.

Hyland put up a great battle and at times it looked as though he might overthrow the great Dane and take the championship. But Nelson battered his game opponent into helplessness, and in the last two rounds had him at his mercy.

The attendance was one of the largest that has ever assembled to witness a fight here.

### Women and the Stage.

David Belasco was in his best mood at a dinner at the St. Regis preceding his vacation—his first vacation in 20 long, hard years.

Mr. Belasco, in the course of a learned review of barefoot dancing, problem plays and such like outcroppings of stage history, smiled and said:

"It may be true, as some have claimed, that immoral plays are due to the immoral taste of woman. Yes, that may be true; but, gentlemen, did you ever watch at the theater an elderly, staid, perhaps somewhat unprosperous wife, brooding over a husband a little younger than herself? These wives, surely are no supporters of the immoral stage spectacle.

"Such a wife sat in one of my theaters during the production of a drama. The heroine, a beautiful girl, said at a dramatic moment:

"Merciful heavens, I am undone!"

"The wife rose hurriedly.

"Come, Clarence," she murmured, sternly, "We've had enough of this. I'm not going to have you drinkin' in any Salome dance or disrobin' act."

### Small Talk.

A young fellow in Bloomington, Ill., who has been devoting himself for some years to a young woman of that town, recently found himself in a most embarrassing situation just as he had taken his courage in both hands and was "going to ask the girl."

"Harriet," he said, as he shifted his feet uneasily and swallowed the lump in his throat, "I'm anxious to have you—"

"Yes, Mr. Hummer," gently interposed the young woman, by way of encouragement.

"Well—er—Harriet," he again began, "I'm anxious to have you—"

Just then both parents of the young lady entered the room where the lovers sat.

"Oh, Mr. Hummer," said the desperate girl, "what was it you were just telling me?"—Harper's Weekly.

**One of Two Mysteries—The Circus.**  
So long as the hearts of men contain one chamber which does not grow with them beyond childhood, so long as women bear children, the circus will live—which will be forever. The circus is immortal!

The circus is an elusive thing; a clear-skied morning, and it is here, filled with boasting and noise, laughing at our troubles from out of a Palastian mirth. Then in the muck of night it slips away again, as if it knew that we are but children and would be gone without farewells. Rough men marshal it, grimy with its labor; rude are its jests and coarse its people seem at times; but down under the crust of them and the dust of the world's highway is that touch of tenderness which no circus man has ever been without, since they grew wise and left the rest of us children still.

There are two things in life which are full of magic and mystery—the circus and the sea.

**SWEDEN WON THE RACE**

International Marathon in Chicago Brought Dark Horses Ahead.

Hearst News Service.

Chicago, May 29.—John Svanberg, Sweden's long-distance runner, won the great international 10,000 Marathon derby here today.

With a magnificent dash at the close, he finished the long twenty-six miles, 385 yards course in 2:48:11 1/5.

John Hayes, the winner of the world's Marathon at London, was second, and Fred Appleby, of Chicago, an amateur, third.

The two favorites in the betting, St. Yves and Tom Longboat, did not finish. St. Yves met his Waterloo in a blister that formed on his foot, after he had run fifteen miles, while Longboat was overcome by the heat early in the race.

**Long Out of the Sea.**

Mr. Gaynor, an Irishman celebrated for his good humor, was dining one Friday with a friend and fish was the only meat served. Gaynor was particularly fond of haddock, and seated himself near a fine specimen. His olfactory nerves, however, soon made him aware that the fish was not too fresh. He first lowered his mouth toward the head of the fish, and then his ear, as if conversing with it. The woman of the house, perceiving his peculiar motions, asked him whether he wished anything.

"Nothing," replied Gaynor, "nothing at all, madam. I was merely asking this haddock whether he could give me any news of my friend, Capt. Murphy, who was drowned last Monday; but he tells me that he knows nothing of the matter, for he himself hasn't been to sea these three weeks."—Sunday Magazine.

## SAYS BANK WAS ROBBED

OWNER CLAIMS "BANDITS" RELIEVED HIM OF THE SUM OF \$3,500.

### VICTIM CALLS ON THE POLICE FOR AID

Told Deputy Sheriff People Might Think the Story Was a "Fake," and in Consequence Asked to Be Searched.

St. Louis, Mo., May 29.—Stephen Moore, sole owner of the People's bank of Benbow City, Ill., created much excitement in that town yesterday by reporting shortly after 1 p. m. that he had been held up in his bank by two men, who robbed him of a \$2,500 package of bills he had just received from the express office and about \$1,000 of other currency. The package was made up of twenty-four \$100 bills, one \$50 bill and fifty \$1 bills.

Moore's statement made to Night Police Chief Gillaspay, of St. Louis, last night, is that two men came into the bank and one of them asked him to cash a \$2 check. He turned to the cash drawer and when he turned back the men had him covered with revolvers, and ordered him to throw up his hands. Then they took the \$2,500 package and the other money, threw cayenne pepper on the floor, presumably to prevent blood hounds from trailing them, and walked out.

Moore called at police headquarters to report the robbery and asked that someone be detailed on the case. Night Chief Gillaspay assigned Special Officer Oscar Dowell to investigate it and took the descriptions given by Moore.

At police headquarters Moore said he had already consulted the Pinkerton Detective agency, and would make every effort to capture the men, although he thought the chances of getting them were remote.

At police headquarters he said he was going to the Union Station bank to make arrangements for money with which to take care of his depositors, and that he would go to Benbow City, as usual, this morning. He lives at 4006 Lincoln avenue.

Moore was too much excited to sound the alarm at once, and the first communication he made was to James Olroyd, village president, said to be the heaviest depositor in the bank. Olroyd says that he went to the bank and was told by Moore of the robbery. Deputy Sheriff George F. Crow was on the opposite side of the street serving some papers at the time. He went over to the bank and says he found Moore very much excited.

When the officer asked about the robbery Moore said to him: "Search me; search the place. Somebody may think that I did this."

Crow told him that he had no intention of doing anything of the sort, and walked off, taking no further interest in the case.

When asked yesterday afternoon by a reporter for some information about the affairs of the bank, Mr. Moore said it was opened August 11, last.

"Who is the president?" "I am the president."

"Who are the other officers?" "I am the only officer the bank has."

"Is the bank incorporated?" "No; it is not."

Moore gave a detailed description of the bandits. One, he said, was 6 feet tall, about 40 years old, weight 160 pounds and wore a stubby dark mustache and several days' growth of beard. The other man was not nearly as tall and was about 25 years old. He was smooth shaven, weighed 140 pounds and wore a light suit.

Marshal Clifton Mathney, of Benbow, was summoned to the bank by telephone and sent out messages to towns in the vicinity, giving the description of the men furnished by Moore. No one else could be found in Benbow City who could recall seeing men answering that description on the streets either before or after the robbery. The bank is surrounded by other business houses. It is a small frame structure.

While the statement of Moore about the robbery is accepted by the people of Benbow City, there was no man hunt organized and no particular interest taken in the matter after the first rumor of the robbery had brought all the people from the central part of town to the bank.

### No Tipping on German Lines.

New railway regulations interesting to the large and increasing number of Americans visiting Germany went into force April 1. Tipping of railway employees on trains is prohibited; passengers giving tips will be punished and the official bribed will be dismissed. The railways will be responsible for passengers' luggage for 14 days and at all times responsible for luggage lost. Children over ten years will not be permitted to travel in compartments reserved for women. If a train is full, a traveler, although he may have a ticket, may be compelled to wait for the next train. A friend taking leave of a traveler and remaining in a train until it moves will have to pay a fine of \$1.50.

### Marvels of the Telegraph.

Karachi, in northwestern India, is now within a minute of London by telegraph. The Indo-European Telegraph Company has recently introduced a system of relays along its line, so that the electric current which starts from London can be propelled the full distance of more than five thousand miles to Karachi. Hitherto it has been necessary to have operators at several points to take the message and repeat it. The relays, which substitute a strong current for a weak one, have displaced the operators and quickened the time in which messages can be transmitted. The system is not a novel one, and has long been in use in this country, but the Anglo-Indian line is longest upon which it has been established.

### Negative Virtues.

Beware of making your moral stable consist of the negative virtues. It is good to abstain, and teach others to abstain, from all that is sinful or hurtful. But making a business of it leads to emaciation of character, unless one feeds largely also on the more nutritious diet of active sympathetic benevolence.—Oliver Wendell Holmes.

### True and Patient Work.

An idea arrives without effort; a form can only be wrought out by patient labor. If your story is worth telling, you ought to love it enough to work over it until it is true—true not only to the ideal, but true also to the real.—Henry van Dyke.

### Deputy Goes to the Country.

C. B. Hanley, the efficient deputy county collector, who has frequently been mistaken for Deputy Sheriff Charles Menefee, there being quite a resemblance between the two, and family, left Saturday for Fountonia to visit home folks. Charles mapped out his visit before leaving. He spent Saturday fishing, and will spend today "snipping," while tomorrow he will go "frogging."

## POP WAS TAKING IT ALL IN.

Probability That Bullying Lawyer Would Have Good Cause to Regret His Outburst.

A fresh young lawyer had the insane idea that bulldozing a witness brought about the best results. He was the defendant's attorney in an important case, and naturally was anxious to win. One of the witnesses for the plaintiff was a youngster of perhaps sixteen years of age, red-headed, had a pugnacious look to his jaw, and as he took his seat in the witness chair he gazed about the courtroom as if he felt perfectly at home. Then the young lawyer got at him.

"What's your name?" bellowed the exponent of Blackstone.

"Bill," was the quiet response.

"Bill, what?"

"Bill Watt!" repeated the boy.

"Now, see here, young man, don't get new. I want your name—and quick, too. Again, what is it?"

"Bill Watt—Watt—Watt—Watt—that is it. Do you want me to whistle it?" saucily replied the youngster.

"Oh, I see—your name is Watt—Watt, eh?" said the lawyer as the audience grinned.

"You're on!" spoke the boy.

"Now, Bill Watt, pay strict attention to the question I'm going to ask you. Listen! Isn't it true that you have sometimes been called a prevaricator?"

"Come again!" was the reply. "I didn't get in right on that."

"A prevaricator—one who tells fibs—you know what fibs are, don't you?" explained the attorney.

"Well, I guess I'm not one of those prevaricator things—not by a long shot. You've got the wrong child, old scout," saucily remarked the red-head.

"Very well," replied the lawyer.

"We will let that pass. But now, isn't it true that your father never brought you up in a proper manner; isn't it true that he was rather shiftless, never works, and makes your mother take in washing, and—"

"Say, you—you—" The boy tried hard to get the words in.

"And isn't it true," continued the lawyer, "that he is in fact, a sort of a loafer, and a—"

"Hold on! Hold on there!" cried the boy, this time so everybody could hear him. "What's the use of askin' me them questions. Why don't you ask pop himself—he's sittin' over there on 't' jury!"

## FLORIDA FRUIT LANDS CO., Kansas City, Mo.,

Gentlemen:—I enclose you herewith my contract for a ten-acre tract of your muckland.

I already own ten acres of muckland, three miles south of Dania, Florida. I rent my land at \$15 per acre per year, to vegetable farmers. It is new land, having been ditched or drained only six months. The renters raise egg-plant, okra, peppers, lettuce and tomatoes, in the early fall winter and early spring. They make from \$200 to \$300 off their lettuce, egg-plant, okra and peppers, and from \$1,000 to \$1,500 per acre on tomatoes, the latter being considerably the best crop.

My renters tell me there is enormous profit in the raising of vegetables, and that poor negroes and crackers pile up small fortunes in raising vegetables for the northern markets.

Yours very truly,

(Signed) ELIZABETH T. BAKER.

**Unhappy Lot of Chinese Doctors.**  
He patches health by contract. Each family from whom he receives a yearly stipend can command his services at will. Hence his interest is to keep down sickness among subscribers, especially since every day of illness means to him not only loss of time, but the deduction of a day's pay from his honorarium.

Comparatively secure is the lot of the ordinary Chinese practitioners, for whom the utmost penalty for a mischance is loss of income, as compared with that of the imperial court physician. To this high functionary, who attends the high officials also, inability to cure a patient is a matter of graver moment. Thus in November last the deaths of the empress dowager and the young emperor resulted in the degradation by two classes of five doctors, while the president of the Imperial hospital and two assistants were prohibited altogether from following their profession.—Harper's Weekly.

#### Smuggling Chinese.

Australia is perturbed by the discoveries of Mr. Batchelor, the commonwealth minister for external affairs, who has been inquiring into the illegal influx of Chinese. There is a wealthy organization in China with agencies in all the principal Australian ports and with the connivance of ships' officers the systematic smuggling of Chinese into Australia has been carried on for a long time.

The ships trading between Hong-kong and the Australian ports have been so cunningly supplied with false bulkheads, walls and floors that hiding room has been provided for 80 Chinese stowaways on a single voyage. Ship cooks have been secretly paid to supply the stowaways with food.

The trade is very profitable, as Australia is only a few days' steaming from China and many thousands of Mongolians are always ready to pay large sums and run all sorts of risks to get to the land of gold.

#### Jarred Queen Wilhelmina.

Queen Wilhelmina has a good ear for music, and once when an amateur musician was playing at the court she nearly disgraced herself from the point of view of royal discipline. His playing was anything but brilliant, and it so jarred on the young queen's ear that she hastily jumped up and left the room. Her courtiers remonstrated with her. "I know I ought not to have done what I did," she said. "I mean to be polite to my people, but I cannot be polite to wrong harmonies." Later she sent for the poor musician and begged his pardon, but it was a question whether her concession as a queen was great enough to offset the fact that this only seemed to make a bad matter worse.

### SPOILED A GOOD IMPRESSION.

Final Act of Inmate of Asylum Gave Visitor Good Ground for Doubting His Sanity.

Low Dockstader tells in the Saturday Evening Post of a friend of his who visited an insane asylum and came across an inmate who was walking in the corridor. His friend engaged the inmate in conversation and discovered him to be a most intelligent person, posted on all the topics of the day, with rational ideas about everything and no signs of insanity. "You do not seem insane," said the visitor.

"Certainly not," replied the inmate. "I am perfectly sane. I am here because of a plot against me by some enemies. If I could get word to my sisters and brothers I would be liberated at once. Also, I would like a word with my lawyer."

To make sure, the visitor talked for half an hour with the inmate and, in the end, was convinced a gross injustice was being done. He said: "I will gladly take a message to your lawyer or your brother. I am sure you are sane."

"If you will," replied the inmate, "I shall be under lifelong obligation to you. I am incarcerated here for no reason. I am sane. Please say to my lawyer that you saw me here and that I want him to come at once and see me so I can take steps to regain my liberty."

There was some more conversation and the message was arranged for and addressed given. After other protestations of his sanity and assurances by

the visitor that the outrage would soon be corrected, the visitor turned to go. As he was about to descend the steps he was hoisted off his feet by a tremendous kick and fell into a flower bed. He turned to see the inmate grinning at him from the steps. "Why did you do that?" shouted the visitor.

"Lest you forget," said the inmate, shaking a finger at him—"Lest you forget."

#### Wrong Estimate of Success.

Dr. Elliot, lately president of Harvard university, said recently at a reception in New York: "My career appears to strike a considerable number of people as a successful one. People congratulate me on what they call my success. But my career has certainly not been successful in what is considered to be the American idea of success in a pecuniary way. It is a success in terms of service—service to the community. Now, does not this refute the common opinion that the American estimate of success is a pecuniary one?" Dr. Elliot then related an incident in one of his travels by boat when the vessel's officers came to him and said: "We officers want to ask you a question. We know you are a smart man. We want to know why, being a smart man, you are not rich?" Dr. Elliot did not repeat his reply, but concluded his remarks on the subject by saying: "The real American estimate of success in the world is serviceableness and not wealth."

#### Swearing to Validity of an Excuse.

Kissing the book seems to be on the point of being consigned to well-deserved oblivion, and England might easily take pattern by the form of oath that obtains in the Channel islands. The 12 rectors are ex-officio members of the States of Jersey, and in common with other constituent elements of the same body they may frequently be seen with the uplifted hand swearing to the validity of the excuse that another member is absent through illness. The custom has been handed down from a Norman ancestry that ever recognized the sacred finality of putting a man on his oath, and emphasizes most strikingly the parallel values of the right hand and of a man's pledged word. "Poingdestre" is still a Jersey surname.—The Guardian.

#### A Correct Diagnosis.

The Doctor—"Ah, yes! Very nervous, irregular pulse, palpitation of the heart and feverish. Let me see your tongue!" "There's nothing the matter with me, sir. I just came to ask for your daughter's hand!"

#### Eighth Wonder of the World.

There are said to be seven great wonders in the world, and it is every woman's opinion that if an eighth were added, it would be a man's conscience. —Atchison (Kan.) Globe.

### NOW LIVING ON MILLET

NATIVE CHRISTIANS IN KOREA IN ORDER TO SPREAD THE GOSPEL.

#### A FEW MISSIONARY NOTES OF INTEREST

The Most Northern Christian Endeavor Society in Europe is Fifty Miles Beyond the Arctic Circle, 'Tis Said.

In Korea some of the native Christians are living on millet and selling their rice and using the difference in price as a means to spread the Gospel among their own people.

Reports from some of the aboriginal tribes in China say that cut of 1,200 converts baptized in 1906 only three have gone back to heathen practices. Each family is giving a free will offering of grain, which goes toward the support of their evangelists. They are sending money to Bible and travel societies and are building their own chapels.

From April to November, 1908, inclusive, 1,826 cases packed with Bibles, weighing 178 tons, were sent out from London headquarters of the Bible society to be sent abroad.

The most northern Christian Endeavor society in Europe is fifty miles beyond the Arctic circle. The longest day there is 408 hours and the longest night the same length.

Frances E. Clark says: "One who prays, 'Thy Kingdom Come,' and does not give some just proportion of his income to promote the kingdom is a conscious or unconscious hypocrite."

Horace Bushwell says: "There is need of one more revival among Christians, a revival of Christian giving. When that revival comes the kingdom of God will come in a day."

Robert E. Spur says: "The reason many people have no interest in missions is because they invest no principle. We cannot serve God and Mammon, but we can serve God with Mammon."

### RECORD IS A BRILLIANT ONE.

Virginia Military Institute Has a Deserved Reputation as Second to None Other.

"In all the professions and vocations of life," says a writer in the National Magazine, "the men trained at the Virginia Military Institute have won for themselves honorable distinction. The record of services rendered by her sons in the civil, Spanish and Philippine wars has established the reputation of the Virginia Military institute upon an enduring foundation. In the regular army her graduates are found in numbers second only to those of West Point. The Marine corps and the navy also claim a large number of these finely-educated and disciplined young men. The institute has been officially recognized by the imperial government of China, a number of student cadets from the Flowery Kingdom having been sent to the institute.

"At the commencement exercises in June, 1908, the guest of honor, Maj. Gen. J. Franklin Bell, chief of staff of the United States army, addressing the cadets referred to the school as 'an institution which of its kind is second to none other in the world.'"

"On the anniversary of the conflict now known as New Market day at the institute the names of the cadets who fell in battle at that time are inserted in the company rolls, and as they are called by the sergeant a cadet of the first class steps to the front, salutes and reports: 'Died on the field of honor, sir.' Their names will ever live in the memory of the institute and of the commonwealth of Virginia.

"Five of the killed are buried in the cadet cemetery on the institute grounds, and on New Market day the battalion marches to this beautiful and secluded spot and there fires three volleys over the graves of the young heroes.

"One cannot leave this little cemetery without feelings of deepest emotion as he contemplates the sacrifices so gallantly made years ago by the youthful soldiers of Virginia. A more beautiful spot for a last resting place was never seen than this—in the quiet and peaceful valley of the Shenandoah."

J. A. CAPPS & SONS.

You can't get them anywhere else, and any others are not the same. They are strictly all wool and real silk combined, absolutely fast color and can be washed without injury. Frequent tests throughout the United States have proven that the fabrics in Capps & Sons clothing will wear longer than any similar fabrics on the market. It has been estimated by experts that ninety per cent of clothing sold contains shoddy or cotton. Capps & Sons' clothing contains neither. They are the best grade of all wool. Capps & Sons weave their own fabrics and make them up into the most modish suits after the latest approved styles. **Humor.**  
The temple of art devoted to that peculiar form of entertainment replete "polite vaudeville," was crowded to suffocation as Messrs. Biff and Bang, the refined sketch team and sidewalk conversationalists, stepped jauntily to the footlights. In response to the deafening applause Messrs. Biff and Bang bowed condescendingly, as though it hurt them.

Without further preliminary Mr. Biff hit his partner on the rear of his ample trousers with a stuffed club, remarking: "It's a wise man that knows his own mind."

And Mr. Bang, not to be outdone in this little exchange of pleasantries, promptly buried an ax in the skull of Mr. Biff, remarking the while: "It's a wise man that minds his own nose."

Whereupon the intelligent audience screamed with delight and voted Biff and Bang the best ever. "And yet they were a frost in the London halls," commented a man in the front row. "The English have no appreciation of real humor."

#### Poisoned by Honeysuckle.

One of the most favorite and beautiful of our flowers is the common honeysuckle, but it would seem to have its dangers. The London Lancet mentions a case occurring in the practice of Dr. Engle of Volden, in which a little boy two years old was poisoned by its flowers.

The child, after being in the garden playing with the flowers, became tired and drowsy and then complained of thirst. Our contemporary describes the symptoms that followed and adds that the boy made a good recovery but was peevish and inert for some days. Various kinds of honeysuckle have been used medicinally as diuretics and diaphoretics, and it is well that it should be known that some of the varieties at all events are far from harmless. The flowers appear to be specially dangerous when freshly picked.

#### Great Curiosity.

The manager of the side show mounted the platform.

"And here, ladies and gentlemen," he remarked impressively, as he placed his hand on the long, flowing locks of a pale young man, "we have one of the greatest curiosities this broad country has ever known."

"And what is so curious about him?" asked a voice in the crowd.

"Why, ladies and gentlemen, he is a real, live dyed-in-the-wool Indiana poet who has written a score of poems this spring and not once has mentioned the word 'fishing.'"

#### Woman Skilled as Woodworker.

Lady Colebrooke, who is famous alike for her beauty, accomplishments and skill as a political hostess, possesses a wonderfully complete carpenter's and wood carving shop at Abington, Lanarkshire. Here she has not only turned out some clever pieces of work, but she has taught some of the village girls on her husband's estate how to fashion wood by hammer and chisel.

Lady Colebrooke is a clever sculptor too and has exhibited at the Paris Salon. She shares with her husband a love of all that is artistic and beautiful, and to add to all these varied accomplishments she can drive a four-in-hand and a Russian droschky and three.—M. A. P.

#### Anything to Oblige.

They were a very young and obviously bride and bridegroom looking couple. On entering the little tea-shop in the upper avenue the maid tactfully led them to a private room which chanced to be vacant. Tea was ordered and served. As the waitress was leaving the room the young man discovered an important fault in the service.

"Oh, waitress," he said, "may we have a spoon?"

"Sure," said the girl; "I won't come back for ten minutes, and you can have the room all to yourselves."—Tit-Bits.

## CHURCH IS 11 YEARS OLD

EAST BROADWAY CHRISTIAN IS  
TO CELEBRATE ANNIVERSARY  
JUNE 6.

### WHEN SPECIAL SERVICES WILL BE HELD

Also Special Offering, Each Person  
to Contribute a Coin Multi-  
plied by Eleven—The Pub-  
lic is Invited.

On the first Sunday in June the  
East Broadway Christian church will  
observe its eleventh anniversary by  
special services in the morning.

Their aim is to reach 225 in the  
Bible school and to make it day long  
to be remembered by those who are  
present.

S. M. Williams is the efficient su-  
perintendent and well does he lead  
the forces. He is reinforced by ear-  
nest and consecrated teachers, who  
would be glad to welcome large num-  
bers of East Sedalia's non-Sunday  
school goers in their classes each  
Sunday.

At 10:45 a. m. Mr. W. E. Driskell  
will have charge of the music. A re-  
specially interesting part of the ser-  
vice will be a roll call of the mem-  
bership. Each member is asked to re-  
spond with a favorite passage of Scrip-  
ture.

Those finding it impossible to be  
present will please send their verse to  
the pastor, or some member, with

a request that it be read. A record of  
those responding will be kept.

Another important feature of this  
anniversary service will be that each  
member is asked to bring a special of-  
fering. This is to consist of a coin  
multiplied by eleven, the number of  
years the church has been built. Each  
member is to select his own coin.

This is to enable every member  
old and young, rich and poor, to make  
an offering.

It is hoped that this special offer-  
ing will total \$200, which is sorely  
needed at this time. As time permits  
Rev. E. H. Williams will discuss some  
things pertaining to the future of the  
congregation.

The evening service will be the  
Children's day program. Visitors will  
be cordially welcome at all services.

Will Close at Noon Monday.

Monday, May 31, being Decoration  
day, we, the undersigned grocers of  
East Sedalia, will close our stores at  
noon on that day.

### Our Friends.

Women are more loyal friends, es-  
pecially to men of genius, than are  
men to each other. That is one re-  
ason, perhaps, why the man of genius  
usually surrounds himself with petti-  
coats, rather than with admirers of  
the sterner sex. He wishes to be  
praised when living as well as when  
dead.—London Sketch.

No Danger from Jimmie's Knife.  
At Jimmie's birthday his mother  
gave him a knife. A little friend  
told him that he ought to give his  
mother a penny so that it would not

else, so I guess it won't cut our  
friendship."—Delineator.

## JAMES SHARP IS GUILTY

RELIGIOUS FANATIC KNOWN AS  
"ADAM GOD" CONVICTED IN  
KANSAS CITY, MO.

### GOT SENTENCE OF 25 YEARS IN PRISON

He Heard the Verdict Without a Show  
of Emotion—His Wife Is to Be  
Tried on Same Charge  
in a Few Days.

Associated Press.

Kansas City, Mo., May 29. — The  
jury in the case of James Sharp, or  
"Adam God," charged with the mur-  
der of Policeman Michael Mullans in  
a religious riot here Dec. 8, last, this  
morning returned a verdict of guilty  
of murder in the second degree.

Sharp was sentenced to twenty-five  
years in the penitentiary.

When the verdict was read Sharp  
heard it without a show of emotion.

"That's all right," said he, "it's the  
will of God."

Sharp's wife, Melissa, who is yet to  
be tried for the murder, was not in  
the court.

When news of the verdict was con-  
veyed to her in her cell, she wept,  
but quickly regained her composure.

Her case comes up within a week  
or ten days.

### Dr. Will J. Wills.

Dr. Will J. Wills, a graduate of the  
Sedalia High school, class of '93, a  
Sedalian since boyhood, has opened  
offices in the Hoffman building for a  
general practice of medicine.

Dr. Wills, since completing his ele-  
mentary and college education, has  
had practical experience in his pro-  
fession, having been associated with  
the best in the medical fraternity.  
He was assistant in the City and Fe-  
male hospitals in St. Louis and at the  
Missouri Pacific Railroad hospital,  
St. Louis, five years. He just recent-  
ly left Fort Smith, Ark., where he  
was engaged in general practice, to  
come to Sedalia to locate.

### "Pickled" Tea.

the material has matured.

## RUMBLINGS OF THE RAIL

A PENNSYLVANIA CONDUCTOR  
WHO COULD NEITHER READ  
NOR WRITE, HE SAYS.

### COACH CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From  
Various Sources For the Benefit  
of Democrat-Sentinel  
Readers.

A verdict which may disrupt relief  
conditions of the entire Pennsylvania  
system, as well as other railroads of  
the country, has just been announced.

Notwithstanding the fact that the  
contract in the Pennsylvania volun-  
tary relief department, which every  
member must sign, expressly stipu-  
lates that it releases the company  
from liability for damage in the event  
of injury, providing the benefits are  
paid, Wilson E. Barnett, a conductor,  
who had his right leg crushed off two  
years ago, was awarded \$2,000 dam-  
ages by a jury in the Blair county  
court, after receiving more than \$400  
in benefits.

In other respects the case was the  
most novel ever tried in the local  
courts. Barnett testified at the trial  
that he could not read or write, two  
qualifications the company always in-  
sists upon in conductors; that he  
never was given a book of rules; that  
he never received instructions as to  
his duties, and that his signature was  
obtained to the relief contract by  
fraud. The company probably will  
take an appeal.

### Declared Western Road a Model.

J. C. Lawrence, one of the railway  
commissioners of Washington state,  
after an inspection of the Idaho &  
Washington, declares that it is a  
model railroad.

"Its grades and curves," he says,  
are all that engineers can make them.  
Its cars are the latest and best pro-  
duct of the Pullman shops. Each car  
carries a dynamo and storage bat-  
teries that light it with electricity while  
it is running, and for eight hours af-  
terward. The engines are the latest  
models and shine like new coins."

### New Home for Will Hall.

City Secretary Yocum issued a  
building permit yesterday afternoon,  
says Friday's Denison Herald, to W.

on part of lot 15 and lot 14, block 41,  
Miller's Second addition. The cost of  
the building will be \$2,750.

Mr. Hall is assistant superinten-  
dent of telegraph for the Katy,  
who recently moved here from Se-  
dalia. The site is in the 1200 block  
on West Gandy street.

## SOLDIER- PATRIOT DEAD

(Continued from Page 1.)

Francis M. Ceckrell, later a United  
States senator from Missouri. The  
ex-governor and the ex-senator were  
partners for many years. Two terms  
in congress as representative of the  
Seventh district preceded his election  
as governor of Missouri in 1881.

Elected by a large democratic ma-  
jority, Crittenden faced troublesome  
conditions in the state as governor.  
Outlawry and night riding had re-  
ached such a stage that practically every  
stranger was held under suspicion.  
A persistent prosecution resulted in  
the dissolution of the bands of des-  
peradoes and the pardoning of Frank  
James. The governor handing  
James his freedom papers on the  
steps of the state capitol at Jefferson  
City has been woven into stories and  
dramas and will be remembered as  
a famous historical incident.

William A. Pinkerton, of the Pin-  
kerton detective agency, said in a  
speech in 1907 referring to the James  
gang:

"The ultimate disbandment of the  
James band can be attributed mainly  
to Governor Crittenden, of Missouri,  
aided by Sheriff Timberlake and  
Commissioner of Police Craig, of  
Kansas City. Frank and Jesse  
James joined the Quantrell band,  
carrying on a guerilla warfare. After  
the war, the James boys, under  
the leadership of Bill Anderson, with  
some other members of Quantrell's  
organization, began prowling through  
Western and Southwestern Missouri  
and Eastern Kansas for whatever  
spoils they could get. From that time  
until April 3, 1882, when Bob Ford,  
for a reward of \$10,000 offered by  
Governor Crittenden for Jesse James,  
dead or alive, killed him in his home  
at St. Joseph and until October 5,  
1882, when Frank James surrendered  
to Governor Crittenden in Jefferson  
City, Mo., these outlaws, operating  
with Cole, Jim, John and Bob Young-  
er, Clell and John Miller, Charles  
Pitts, the Tompkins brothers, Jim  
Cummings, Dick Liddell, Bill Anderson  
and other members of Quantrell's  
band, committed a series of the most  
despicable crimes of that period in  
Missouri, Kentucky and Minnesota,  
holding up banks in the day time,  
robbing trains at night, murdering re-  
spectable citizens who attempted to  
resist them and killing officers."

## STREET CAR STRIKE SERIOUS

Philadelphia Lines Helpless, With  
Over 2,000 Men Out.

Associated Press.  
Philadelphia, Pa., May 29.—At 10  
o'clock tonight only four lines of the  
street cars of this city were running  
on anything like their schedules.

The strikers claim great gains and  
the company officials concede that at  
least 2,000 men are now out.

Rioting broke out in West Phila-  
delphia and in the northwestern  
section of the city tonight. In one in-  
stance the rioters stoned a car and two  
women passengers were so badly  
bruised that it was necessary to take  
them to a hospital.

A police order closes all drinking  
places from 6 o'clock tonight till 7 a.  
m. Monday.

Throughout the day riots occurred  
in various parts of the city, but in ev-  
ery instance the appearance of the  
police put an end to violence.

Up to 6 o'clock tonight twenty-two  
arrests for disorderly conduct had  
been made.

### Taunting Him.

It was housecleaning time, and Mr.  
Stubb was removing the dusty pic-  
tures from the walls. The frames  
slipped, the step-ladder creaked on-  
tiously, and the perspiration rolled  
from Mr. Stubb's brow. In the humor  
to bite a nail in half he turned and  
discovered Mrs. Stubb laughing.

"That's it!" he roared, as the step-  
ladder swayed. "Laugh and show your  
gold teeth."

And still she laughed.  
"Do you think there is anything  
funny in my moving these pictures?"  
he sputtered, in fierce tones.

"No, indeed, John," said Mrs. Stubb  
soothingly, "but you know you look  
so funny it looks like a moving pic-  
ture show."

Then Mr. Stubb swallowed a pint  
of dust and simply fumed.

### Delayed.

Though his complexion was pale  
green, he managed to totter to the  
deck in the third day after leaving  
port. There he met an exasperatingly  
jovial and healthy looking fellow-  
passenger.

"Glad to see you," exclaimed the  
latter to the man with the green face;  
"how is it that you haven't been on  
deck before this?"

"Well, you see," replied the other,  
"each time that I planned to get on  
deck, something kept coming up, so I  
had to postpone the trip."

### No Value to Him.

"What convinces you that criticisms  
are of no value?"  
"Because," answered the theatrical  
manager, "my show doesn't get any of  
the kind I can quote in my advertis-  
ing."

We had no idea when we  
started this closing out sale of  
thousands of dollars worth of  
piece goods that it would be  
possible to close them out in  
such a short time. From the  
way the people have taken ad-

last a few days longer. Hun-  
dreds have supplied their wants  
for both summer and fall. If  
you are not one of these hun-  
dreds you had better get busy,  
for the balance of the stock of  
piece goods will go in the next  
few days. This means every-  
thing that comes by the yard.

### Squandering Ability.

Doing the lower when the higher is  
possible constitutes one of the great-  
est tragedies of human life.

The squandering of money seems a  
wicked thing when we think of the  
good that might be done with it; but  
what about the wicked waste of abili-  
ty, the deliberate throwing away of  
50, 75, perhaps 90, per cent. of one's  
success possibility just because he  
never trained himself to use it, to  
grasp it with such vigor and power  
that he can fling his life into his ca-  
reer with its maximum effectiveness?

Most people take hold of life with  
the tips of their fingers. They never  
get hold of the life proposition with  
that grip and tenacity of purpose and  
vigor of determination which does  
things worth while. They just hang  
on the outskirts of things, playing  
upon the surface of their possibilities  
without ever getting down into the  
marrow of their being, where efficiency  
and power dwell.—Orison Swett Mar-  
den, in Success Magazine.

## THIS COURT HAD A "JAG" George Bernard Shaw

JUDGE CHARLES BARLOW SWAYED FROM SIDE TO SIDE ON THE BENCH.

### LET A PRISONER FIX HIS OWN SENTENCE

Latter Took Ten Days in Jail, After Which the Court Was Committed to the Same Bastille—Case Comes Up Later.

Utica, N. Y., May 29.—Chief of Police Carman, of Canastota, when he arraigned a man charged with intoxication before Justice of the Peace Charles E. Barlow, noticed that his honor was swaying from side to side with a motion that could mean but two things—the court was drunk or dizzy.

Chief Carman watched his life-long friend for twenty minutes, and finally decided he was not dizzy.

Judge Barlow handed the prisoner a pad and pencil and told him to write out his own commitment. The man helped himself to ten days and was escorted to a cell.

Then Chief Carman returned and announced to the court that it would have to be locked up for its own safety. He put Judge Barlow in a cell next door to the prisoner, and the pair conversed in a friendly manner during the afternoon.

At an extraordinary term of court Judge Barlow was arraigned before an acting judge. He pleaded not guilty to the charge of intoxication. His case was adjourned, and in the meantime Chief Carman will round up several witnesses to support his charge.

## HORROR TO THE "DUTCH"

WAS FRENCH FLAG CARRIED IN TO ALSACE ON MOTOR CAR BY A FRENCH LADY.

### PRIEST AND SCHOOLMISTRESS ELOPED

Former Repented and Went Back to the Church, While a Son of a Gardener Fell in Love With Woman and Married Her.

By Paul Villiers.

Cable to the Democrat-Sentinel.  
[Hearst News Service.]

Paris, May 29.—A Parisian lady's attempt to enter Alsace with a French flag on her automobile has, it seems, been able to effect what diplomatists did not dare to ask during the last twenty years. As a result of her "invasion" an annoying public regulation has, it is said, been abolished by the German government in the annexed provinces.

Our Parisienne intended to make a tour of Alsace and Lorraine in her motor car, and in order, probably, that there should be no mistake about her nationality she had a tiny red, white and blue flag stuck in her automobile. She had barely crossed the frontier when a loyal "reichspolizei-diener" had a fit on seeing the colors. He stopped the car at once and proceeded to formalize, as they say.

"What is it all about?" asked the lady. "You must not show that flag in public," answered the policeman. It was against a certain regulation of 1889, paragraph so and so, which forbade the showing of tri-color flags in the "Reichsland."

"I refuse to take it down," said the Parisian lady. "And rather than hide my country's flag, I shall cross back over the frontier," which she did.

The incident soon became known, and hotel keepers in the converted provinces complained of the policeman's excessive zeal. It would tend to discourage all French travelers from visiting the provinces.

The result was that the authorities, it is stated, have abolished the obnoxious regulation, and if French travelers like to display their colors, as Americans do the Stars and Stripes, they will, it is said, be at full liberty to do so, even in Alsace and Lorraine.

There was a stormy election meeting at Neuilly last night. There were no fewer than eight candidates for the seat of the late M. Paschal Grousset, "King" Pataud being among the number. The hall in which the meeting was held was crowded to excess. All of the candidates wanted to speak at once, with the result that stormy scenes occurred. They developed into a perfect tumult.

A second platform was improvised. This made matters worse. Very soon the adversaries came to blows, flinging chairs and even benches at one another. The audience broke into a panic. In order to bring the tumult to a close, some one conceived of the idea of turning out the gas. The rioters then left and took refuge in a neighboring cafe. It was found that no fewer than twenty persons were wounded. One had a leg broken, another a shoulder dislocated, while others had their heads seriously injured.

Mlle. Marie Fremont, the school mistress, whose name appeared in the papers for weeks in consequence of her flight from Chateaucy with a young priest, is again in the public eye.

It will be remembered that the runaway couple took refuge in Brussels, where they had intended to marry, but the priest, who had intended to take employment in a commercial house changed his mind after the birth of a child.

Full of "repentance," he went back to the church, submitting to the rude discipline of the monks in an austere cloister in the wild Tyrol. Marie Fremont was given a home at Font Aven by the Breton bard, Theodore Botrel.

The son of the bard's gardener fell in love with her, and yesterday they were married before the mayor of the Eighth ward, the religious ceremony subsequently taking place at the Madeleine. The bridegroom, Gabriel Duval, was formerly a sailor. He will shortly be employed as a pilot on the river steamers.

The police commissary of the St. Dennis quarter found himself called upon to solve a delicate problem yesterday. A man who is a colonial functionary had distributed his favors

## Picture That Sold for \$40,000

Cable to the Democrat-Sentinel.

[Hearst News Service.]

London, May 29.—The picture of George and Charlotte Horsley was painted by Romney in 1793. It became, for a low figure, part of Lady Gordon Cummings' collection, and was sold some time ago to Thomas Agnew & Sons for \$30,000. It was recently bought by H. E. Huntington for his Los Angeles gallery for \$40,000.

among his companions. The women tired of this arrangement and called upon the functionary to choose between them.

But the functionary was unable to make up his mind. He wanted to pay court to both. As this was impossible, the women decided that he must make his selection, which must be definite, before a police commissary. They accordingly haled him before a magistrate.

When informed of the object of the visit the police commissary did not disguise the fact from his visitors that he was in a dilemma. He was supposed to act as a witness of the functionary's momentous decision; but the latter was still in a quandary. He declined to say the fatal word, and the magistrate declined to assume the role of Solomon. The situation became more embarrassing. Finally, the functionary put an end to it by declaring: "I shall return to my mother." This was the solution, and he acted upon it.

Yet one more sort of strike has been invented, this time in a little town in Burgundy. The doctor's patients are, figuratively speaking, going out. The medical attendants suddenly determined to raise their fees of 30 per cent. Thereupon the patients retaliated by dispensing with their services and decided to get well as best they could unaided.

The opportunity seems a splendid one for Christian Scientists to step in and make hay while the sun shines. The doctors of the place are said to be determined to hold out for their increased scale of charges, and, of course, the colleagues from neighboring towns will not commit so gross a breach of professional etiquette as to turn blacklegs and poach on the other physicians' preserves. But the medi-

cal attendants are playing perhaps a rather dangerous game. Where will they be if their patients get well without them?

Nearly all the men of the Thirtieth Alpine battery are at present in a hospital at Grenoble, suffering from poisoning. Then men went on a march to the Quatre Seigneurs fort, and, on the way, drank bad water from a cistern.

On their return to Grenoble half a dozen of the men became ill. They had to be taken to the infirmary. Other soldiers became ill and yesterday no fewer than thirty-seven artillery men were under treatment.

An inquiry shows that in addition to the impure water, the poisoning was caused by eating tinned meat.

## LIBRARY "STORY HOUR"

WILL BE HELD EVERY FRIDAY MORNING DURING JUNE, JULY AND AUGUST.

### GREEK AND ROMAN MYTHOLOGY STORIES

Next Friday Miss Margaret McDaniel Will Tell About the Beginning of All Things on Olympus.

The story hours will be held each week during the summer months. This year we are going to try a different plan. Heretofore the stories have been varied in character and in subject matter and kind friends have most generously assisted the library staff in entertaining the children. This year the stories are going to be from Greek and Roman mythology and from Homer's Iliad and Odyssey during June and July.

During June Miss McDaniel will tell about the lives and happenings of the gods and goddesses of the old Greek days and tales about heroes. These are all as fascinating as fairy tales and the stories about heroes are ones of thrilling adventure. During July Miss Whittier will tell some of the stories that Homer used to tell the Greeks in the old days.

During these two months it would be well for the children to come every Friday morning, for then it will be like listening to a continued story, yet each one will be interesting, even

if you can't come to all. Next Friday morning Miss McDaniel will tell about the beginning of all things on Olympus and about Jupiter and Juno. The following new books have been received at the library during the past week:

**Adult Fiction.**

St. Joseph Architect Eats Mess and Wins \$5.

Minneapolis, Minn., May 29.—Asserting that ordinary building sand is not harmful to stomachs of mortals, but, on the contrary, is beneficial, J. M. Hubbard, of St. Joseph, Mo., architect, Thursday night ate twelve teaspoonfuls on a wager, and thereby won \$5.  
Mr. Hubbard had just finished a heavy repast and while waiting for a friend, gave night Clerk Brand, at the Vendome, his views on the efficacy of sand when taken internally.  
Brand's views on the subject were slightly different, and as a result the wager was posted. Brand got a plate and filled it with sand and placed it before Mr. Hubbard. What Mr. Hubbard did to that sand was a shame—he ate it without grimace and with apparent relish.  
"Sand is one of the best things in the world for the stomach," he said.

"Yes, if that's what you call it."  
"Well, yes, it is."  
"When do you suppose they'll retire you?"  
"I suppose they'd do it any time they thought I wanted to be retired," said the old foreman, shaking his head with profound sadness, "but I don't want to quit so long as I'm still capable of doing my work."

# HUMORS IN THE BLOOD

When the blood is pure and healthy the skin will be soft, smooth and free from all eruptions or disease, but when the circulation becomes infected with any unhealthy humor the effect is shown by eruptions, pimples, boils, or some more definitely marked skin disorder, such as Eczema, Acne, Tetter, Psoriasis, Salt Rheum, etc.

Humors get into the blood, usually because of an inactive or sluggish condition of those members whose duty it is to collect and carry off the waste matter and refuse of the system. This unhealthy matter is left to sour and ferment and be absorbed into the blood, and soon the circulation becomes filled with an acrid, irritating humor.

The blood then, instead of performing its natural duty of nourishing the skin, regulating its temperature and preserving its uniform softness, pliability and healthfulness, irritates and diseases the delicate tissues and fibers around the pores and glands and produces some of the various forms of skin eruption or disease.

The cause of all skin affections can be traced to some kind of humor in the blood. Healthy cuticles are only possible where the circulation is pure; and therefore the cure of any skin disease can only come from a thorough cleansing of this vital fluid. Salves, washes, lotions, etc., cannot cure. True such treatment relieves some of the itching and discomfort, helps to reduce inflammation, and aids in keeping the affected parts clean, but it does not reach the blood, where the real cause is located, and at best can be only palliative and soothing.

S. S. S. cures skin diseases of every character and kind because it purifies and cleanses the blood. It goes down into the circulation and removes the humors that are causing the trouble, builds up the weak, acrid blood, and completely cures Eczema, Acne, Tetter, Salt Rheum, pimples, boils, and all other skin diseases and affections. S. S. S. is made entirely of roots and herbs, a safe vegetable remedy.

The Kiss of History.

The ancient Teutons observed the kiss solely as a symbol of love and friendship. With them, as with the Anglo-Saxon race to-day, the firm handshake was the usual form of salutation in public. In medieval times the kiss became the symbol of other sentiments. The vassal had to kiss the sword of his feudal lord. The "osculum gladii correcti" was the symbol of fealty. In courts of justice the crucifix on the Bible was kissed, a custom still extant.

### BARBERS ARE "KICKING"

ON HERR HABY, WHO HAD THE TRAINING OF MOUSTACHE OF THE KAISER.

MADE FAMOUS BY MAJESTY'S PATRONAGE

Expect to Unearth a Plot to Secure Possession of Field Artillery of the Germans—Write No More Cynclonic Opera.

By Malcolm Clarke.  
Cable to the Democrat-Sentinel.  
(Hearst News Service.)

Berlin, May 29.—The German Hairdressers and Barbers' union has a grievance against Herr Francois Haby, who enjoys the imposing title of Imperial Court Barber.

Herr Haby is the artist who designed the Kaiser's famous perpendicular moustache fifteen years ago and incidentally changed the physiognomy of masculine Germany. In token of that achievement Haby invented a "moustache bandage," guaranteed to train hirsute adornments along imperial lines. He gave it the trade-mark title of "Es ist erreicht" (It is consummated), and no German's dressing table is complete without it.

His majesty's patronage has made Herr Haby famous and rich but the Hairdressers and Barbers' union complains that he is unduly exploiting for his own uses, through advertising, an asset which belongs to the entire community—that is, the person of the Kaiser. At the union's forthcoming annual meeting in Wiesbaden formal steps will be taken to break Herr Haby's monopoly of Emperor William as an advertising feature.

A mysterious espionage affair is being investigated at the East Prussian garrison of Allenstein. It is believed that a deep-laid foreign plot to secure possession of German field artillery secrets will be unearthed. For the past year and a half parts of field gun mechanism have been disappearing from time to time.

During the artillery maneuvers last month a civilian approached a gunner of the Third battery of the Seventy-third artillery and offered him \$50 for the recoil spring of a field piece. The gunner feigned assent, made an appointment for the delivery of the spring, and informed his commanding officers. The civilian was arrested as he was in the act of paying the money. He declined to give his name. The gunner has been promoted, and \$225 has been credited to his savings bank account, payable when his service is ended.

Dr. Richard Strauss will, for the present, write no more cynclonic opera of the "Salome" and "Electra" pattern. His next work will be called "Sylvia and the Star" and will overflow with light and melodious music. The new piece is being written in collaboration with Hugo von Hoffmanstahl, the librettist of "Electra." The action takes place at the end of the eighteenth century.

Herr Hoffmanstahl had induced Dr. Strauss to compose his next opera on another theme snatched from antiquity, and "Semiramis" was tentatively agreed upon. Dr. Strauss had, indeed, already set to work on the "Semiramis" idea, but when he called upon Hoffmanstahl a few weeks ago to furnish the scenario the librettist announced that he had changed his mind and proposed a work of an essentially lighter character. Dr. Strauss saw the force of the argument that his critics would thus be disarmed of one of their most persistent weapons, viz., the accusation that Strauss can only produce "perverse" music, and "Sylvia and the Star," technically described as a play opera, is to be the result.

Both composer and the librettist are already hard at work, and 1910 will probably see the premiere at Dresden.

Day by day new announcements are made which reveal the extraordinary progress of aerial navigation in Germany. Tonight telegrams from Friedrichshafen state that a large shed capable of accommodating 12 airships of the Zeppelin type will be built there for the Zeppelin company. The shed will be circular and will

have a diameter of approximately 700 feet.

This announcement indicates that Friedrichshafen is intended to be the principal port of Germany's aerial fleet, just as Kiel is the principal port of Germany's navy.

Dispatches from Friedrichshafen announce that the Zeppelin company have offered a prize to any inventor who can construct hulls of airships with any material lighter than aluminum. If it were possible for the hull of a Zeppelin airship to weigh only two-thirds of the weight of the present hull it would be possible for these airships to carry forty persons more than at present, or fifty-five passengers in all.

Berlin is laughing at the fate which has overtaken its crown prosecutor, who has just been fined for violating the motor car regulations. It appears that his chauffeur has been in the habit of blowing the horn of the prosecutor's car so that it emitted a trumpeting sound instead of the short staccato "toff-toff" prescribed by a thoughtful police ordinance. The official whose duty it is to bring other lawbreakers to justice was halted before a magistrate and mulcted in the maximum penalty.

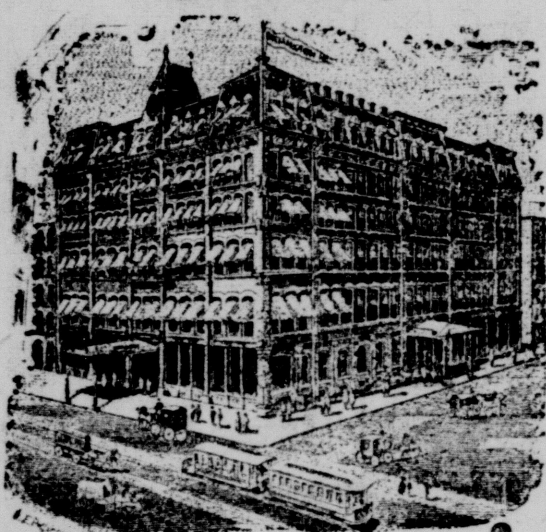

The crown prosecutor will hereafter have to describe himself as a punished person if he ever enters the witness box in a law court, or reports for military service, or encounters any other of the numerous occasions when one is required to tell the story of one's past life in Germany.

as godfather to a seventh son born to a family. This seventh son is never lost sight of. He receives handsome presents from time to time.

Families of seven sons are not rare in Germany. A couple named Hausch, of Wissingen, have just been presented with their tenth son. The Kaiser stood as godfather to the seventh, Prince William, of Hohenzollern, to the eighth, and the crown prince to the ninth. The fate of the tenth has not yet been decided.

A singular love drama is reported from Leipzig. In a wood near the city a 17-year-old youth and a girl, 13 years of age, were found unconscious. They had poisoned themselves. A note beside the bodies set forth that they had decided to die because they loved each other. The youth died in the hospital, and the girl is dying.

According to the Lokalanzeiger, the Crown Prince Danilo, of Montenegro, is again in St. Petersburg, seeking to obtain money for military objects. The crown prince wants 100,000 roubles. He is not staying in the winter palace, but is lodging at a hotel at the cost of the crown. It is stated that there is an agreement between the czar and Prince Nicholas by which Russia shall be considered the financial savior of Montenegro.

**HE WAS A WONDERFUL JOCKEY**

Charles Taylor Rode His Last Race at Age of 96 and Was Model Man.

Charley Taylor, veteran horseman, died this winter at the age of 103. He had made White River Junction, Vt., his home about fifty years. He loved horses as a boy in Canada, sold and handled them there and in the states and finally became a well-known driver on the racetracks of both countries.

It is estimated he won 70 per cent. of about 1,700 races, says the Vermont. He knew what his horses could do in any event, was always with them, even slept with them. He rarely carried a whip, but urged them by a word. He "never abused an animal to have that come up against him."

He was thorough in trifles. His habits were regular and exemplary. He was always in condition. It was his quiet boast that he never lost a meal, never had a cold or a doctor, never took a glass of liquor or used tobacco, never used an oath or shook dice. He never married. His last race was at the age of 96.

As a centenarian he drove exhibition half miles at fairs, and even last October at the state fair resented proffered assistance when alighting from the sulky. His mental and physical activities were surprising to the last. He did the chores, cared for the garden and hens.

He would rarely sit down, and always kept busy, saying: "This is what saves a man. Work to eat, work to sleep. If a man can't sleep he'll wear out." A four weeks' siege of pneumonia carried Mr. Taylor off at last, though the attending physician says he was out doors every day during the time and seemed recovering until a relapse the day before his death.

Deputy Sheriff Was Assaulted by Negro Prisoner.

Boonville, Mo., May 29.—Emmett Vaughn, a negro prisoner in the county jail, late last evening attempted to escape by hitting Deputy Sheriff Lon Keithley with a sharp stone covered with a handkerchief, as Keithley was leaving the cellroom. Interference of other prisoners saved Keithley's life and prevented Vaughn's escape.

Vaughn, who is from Springfield, was an inmate of the state reform school until a month ago, when he escaped and entered a residence here, for which he was in the county jail awaiting trial on a burglary charge. Keithley was taken to St. Joseph's hospital.

## A LETTER FROM GOTHAM

EXTENSIVE PREPARATIONS IN METROPOLIS FOR MEMORIAL DAY.

### SON WHO SUCCEEDS LATE H. H. ROGERS

Sale of Cocaine Is Spreading at an Alarming Rate—Guards Are Entertained as Guests at Mrs. Yerkes.

Special to the Democrat-Sentinel.  
New York, May 29.—With a whole week-end full of flags, flowers and civic ceremony, Gotham today celebrated its heroes of the civil war with more enthusiasm than Memorial day has called forth here in years.

Pageants, parades, excursions and thousands of neighborhood rallies in honor of the older war veterans have this year met with ready response and support from a generation that now walks the town with real memories only of the Spanish warfare.

Heaped high over every acre of the great cemeteries of this metropolis, vast loads of spring flowers were laid by the grandchildren—and even great-grandchildren—of the men who fell for their countrymen who are now passing rapidly away. Bravely closing up its few remaining files, the great army, that younger New York's fathers knew is standing for its annual review, which each year draws nearer to passing away entirely.

### Watching Young Mr. Rogers.

Through every loophole along the financial fortresses of Wall street every eye is today focused ceaselessly upon the young man who is stepping into the titanic shoes of his father, the mighty H. H. Rogers, at the age of less than 30.

The public here has known young Rogers heretofore merely as a strapping young man whose energies have been apparently devoted solely to a college course and playing officer in the militia. From the grave of the suddenly stricken magnate, however, this boy has returned to the Standard Oil fastnesses down town as the accredited ruler of the money power which his father wielded with a force that often made things rattle in the Morgan stronghold across the street.

While all the money world is holding its breath to await the issue, the grim Morgan has today forced his own son into an important director's seat which the senior Rogers left vacant, but could not will away. The passing of the elder oil baron promises to make things exciting for some time in the arena of Wall street.

### The Sale of Deadly Dope.

With an emergency fund of several thousand dollars, which one woman of this city has hastened to supply, the health department officials have worked wonders this week in beginning to lay hold upon the sources of supply of the cocaine victims whose recent increase in this city is seriously alarming the authorities.

Unless the underground purveyance of this deadly drug can be in some measure restrained, the health experts predict, its illicit use will soon eat deep into the core of the life and stamina of this metropolis. Much of this noxious powder and the raw material from which it may be extracted is now known to be quietly brought into port from abroad and circulated with no chance of government supervision through the hidden channels of the underworld to every section of this country.

Medical men, welfare workers and sociological experts throughout this town are today joining the movement which has been begun here to urge congress to place a prohibitive duty and internal revenue restrictions on cocaine for the real protection of every community and family in the land.

### Guards as Guests in a Home.

With private detectives constantly gliding on gum shoes at her elbow, the widow of Charles T. Yerkes is settling down in her Fifth avenue mansion today in a hopeless attempt to make the place seem more like a home than a police station.

Now that decision has been deferred by the courts on the right of the receiver of the Yerkes estate to board and lodge a squad of sleuths in the shadow of every piece of statuary throughout the palatial house, it is practically assured that these precautions against the removal of any of its treasures will be kept up day and night. The strange plight of this mistress of the house who must harbor alien detectives within her walls is exciting a great deal of interest and some sympathy among New Yorkers. Everyone is anxious to

know the final disposition of this rich treasure house of art objects, which the western magnate built up here apparently only to slowly be scattered and lost to the public.

### To Preserve a Green Sward.

To supply the sight of one tiny plot of green grass to the crowds of lower Broadway, the heads of good old Grace church are today ready to celebrate the end of a century of their activities by devoting a priceless building site, which they have bought, to extending their front lawn at the familiar turn of the thoroughfare.

Gardening upon this bit of Broadway will be expensive work; but no one who knows the town believes the memorial fund could be better spent than in preserving natural green sward in the midst of this waste of city structure.

Where stone shafts and steeples might make a more pretentious show to some minds, the people of this city believe the strange sight of a few square feet of nature will prove the more impressive spectacle here.

## HAIR WANTED

There is one place where bald-headed men shine, and that is in the front row seats of the theatre. They do not obscure your view like the "merry widow" hats, and the reflection of the footlights on their pates lends a certain glamor to the scene. If these bald-headed people had used Wyeth's Sage and Sulphur Hair Restorer in their earlier days they would not be so conspicuous now. This preparation does not plant new hair, but it does strengthen weak, dying hair, and not only brightens dull, parched hair, but gradually restores the color to faded or gray hair. It is not a dye, but a clean, wholesome hair dressing, which can be used daily with perfect safety. It is put up in large bottles, holding sufficient for thirty-five or one hundred home treatments, and is sold by all druggists for 50c and \$1.00 a bottle, or is sent direct, express prepaid, by the Wyeth Chemical Co., 74 Cortlandt St., New York City.

Try a bottle today and you will never be without it.

### To Those Who Know.

I would have the mourners grieve all their sorrow out, and not stay from dwelling on their loss; without fully realizing this, they cannot begin to retrieve it. "Keep before you" I would conjure them, "the vision of the face, the form, you shall see no more on earth, and let it pass only of itself, hoping, longing for its return when it fades away. But do not frame this image from the memories of the dead in their hours of sickness, or even in the hours after pain when they take on the majesty and beauty of eternal peace. Those hours are but as instants in the long tale of the years that went before. Return in your tenderness, turn again in your despair, to the records of those happier years, and reconstruct from them the truer likeness of your beloved. See him gay and glad, full of life and purpose, of work and play, of jest and earnest, such as he veritably was, and do not wrong him by the presentment of his suffering or its mortal surcease. Make him your own again, by putting this out of your thoughts, and inviting into them the semblance of him when his life was the habit of your own, and he was most himself in some fortunate, some joyous moments."—William Dean Howells, in Harper's Bazar.

### The Red Room a Quaint Place.

Under the new regime in Washington one of the most interesting spots in the White House will be the Red room, in which Taft will place his teakwood and silver gifts from other lands. The Red room is less crowded than any of the other state rooms, and has little in the way of accessories except the cabinet of ebony, filled with tiny Japanese figures, presented to the Roosevelt children by the Japanese ambassador, Baron Takahira. These figures would look better in a museum, and it is likely they will go there.

# A MONEY-MAKING OPPORTUNITY

Not everybody can go into business for themselves. Lack of capital and absence of special training stand as unsurmountable barriers to many men and women who desire to make something besides the wages they earn with their hands. Today there are many of these who have invested their savings in stock securities and are receiving nice dividends on the investment made. That's the way to make money earn more than the ordinary small per cent paid by the banks for deposits or received from rentals in real estate investments. The whole problem in these matters is to get the right kind of stocks and **GET IN ON THE GROUND FLOOR.** It's those who purchase when an enterprise is started and get the stock at less than par and who afterwards draw dividends on the par value that receive the big returns for money invested. The trouble is to find one of these enterprises and then to get in with those who get the first chance.

## HERE IS SOMETHING THAT EMBODIES THESE REQUISITES

The stock of the Bonner Springs Resort Company has just been placed on the market—it's a safe, sure and profitable investment, and the offer to original buyers now will insure these purchasing stock returns of from 30 to 45 per cent on actual money invested.

The company has purchased the beautiful park on which are the many medicinal springs from which the town takes its name.

These waters, by comparative analysis, have proven far superior to any found in the middle west, and the many people drinking them has created a demand for accommodations on a large scale, consequently a large resort hotel is being built, which it is the intention to open about the first of September.

A bath house unexcelled in equipment is to be built, and the company has planned the construction of a large sanitarium and hospital for scientific treatments and difficult surgery as well as the nursing back to health of invalids.

These are all planned on a conservative basis and a great many people have already become interested. Among them are men who are noted for their excellent judgment and business ability.

THE COMPANY'S HOTEL IN COURSE OF CONSTRUCTION AT BONNER SPRINGS.

This hotel will be managed by Mr. George H. Lawrence, formerly of the Hamilton, of Wichita, the Copeland hotel, of Topeka, and the Huckins, of Sedalia, who has operated some of the finest hotels in the United States, and has had twenty-three years' experience, thereby assuring his many friends that they will be cared for even better than at any time in the past.

The combination of the many lines of business under one corporate management is somewhat unusual, but coupled with the present demand and the systematic management of an expert in charge of each line assures absolute success. We will have the following lines:

- 1 Hotel business.
- 2 Bath house.
- 3 Sanitarium and hospital.
- 4 Amusements.
- 5 Bottling works.
- 6 Electric lighting.
- 7 Refreshments.
- 8 Boating and bathing.
- 9 Rental of summer cottages.

### THE OFFICERS OF THE CORPORATION ARE MEN OF PROMINENCE.

The officers and directors are composed principally of men who have spent years at the head of a large corporation or business, consequently they are competent to handle this large undertaking in a business-like manner.

The directors are:

W. H. Winants, Banker, Kansas City.  
C. J. Schmelzer, Schmelzer Arms Co., Kansas City.  
B. P. Pigg, Secretary, Kansas City.  
J. E. McDaniell, General Manager.  
A. M. Cook, Salesman, Kansas City.  
J. W. McDaniell, Capitalist, Bonner Springs.  
Wm. P. Borland, Congressman Fifth District Missouri.  
F. W. Warner, Banker, Bonner Springs.  
Cliff Langsdale, City Attorney, Kansas City, Mo.  
E. E. Richardson, Secretary-Treasurer Stock Yards Co., Kansas City.  
F. D. Pelletier, President Pelletier Building Co., Kansas City.

### VAST POPULATION TO DRAW FROM.

Within a radius of a hundred miles of Bonner Springs there are more than two millions of people. Within a night's ride lie Kansas, Missouri, Oklahoma, Arkansas, Iowa, Illinois, and parts of Nebraska, Texas, South Dakota and Minnesota. Fifteen millions of people within a fifteen hours' ride. Think of it! One-sixth of the population of the United States! No other watering place west of the Alleghenies can claim this.

Controlling as it does every mineral spring in the vicinity, with beautiful grounds, with a monopoly of the hotel and bath house

privileges, sanitarium and all other revenue producing enterprises found in all health resorts, Bonner Springs will pay big money to those who take advantage of the opportunity presented to them and get hold of this stock.

Nothing of this sort has ever before been offered to the public at large, and usually only a chosen few have been admitted to the "ground floor." The par value of shares are \$10 each. The capital stock is \$500,000. A block of this stock has been set aside to be sold at \$3.50 per share and a portion of this they invest. Information and a block is offered to readers of this paper at the price mentioned, \$3.50 at par value for accommodations at the hotel at any time, or that the stockholders of record can obtain a discount of 10 per cent on hotel and bath accommodations as long as they own the stock.

A conservative estimate by experts in resort enterprises places the earnings of the company at not less than 15 per cent on the capital stock, so that purchasers of \$3.50 per share will receive nearly 45 per cent on the money they invest. Information and a block is offered to readers of this paper at the price mentioned, \$3.50 at par value for accommodations at the hotel at any time, or that the stockholders of record can obtain a discount of 10 per cent on hotel and bath accommodations as long as they own the stock.

## SUED ON GAMBLING DEBT

THE HUSBAND OF ANNA HELD, AN ACTRESS, IS DEFENDANT IN THE CASE.

### ONE CAN'T GET BLOOD OUT OF A TURNIP

It was a "Debt of Honor," but the Employment of a Lawyer Has Taken It Out of That Particular Class of Debts.

New York, May 29.—Correspondence between Florence Zeigfeld, Jr., the theatrical manager, and his wife, Anna Held, on the one side, and Alfred Boulant, proprietor of a gaming house at Biarritz, France, on the other, forms the star exhibit in a suit to recover \$20,000, just brought here in the supreme court by counsel for Boulant. Zeigfeld, according to the papers in the case, refuses payment on the ground that the money was lost at roulette in Boulant's gaming place in the fall of 1905, and that as a gambling debt it can not legally be collected here.

Boulant takes a different view of

Zeigfeld's liability. He has a bill of exchange, purporting to bear Zeigfeld's signature acknowledging the indebtedness and agreeing to pay on a certain date. The whole matter will be thrashed out in court in the near future. Counsel for the plaintiff meantime is holding the letters as corroboration of his side of the case.

Miss Held, in one of these, tells Boulant that he "can't get blood out of a stone," adding that her husband's "unfortunate gambling experiences in Europe have badly tangled his financial affairs."

On the day of her departure for Europe, a few weeks ago, Miss Held announced to reporters that she had finally landed in the millionaire class and that at the close of another season she meant to retire from the stage and live on her ample income.

The bill of exchange bears date of Oct. 10, 1905, and is made payable on Nov. 1 of that year. It was accepted by Zeigfeld on Oct. 16, according to the complaint. In his reply Zeigfeld says that Boulant conducts a gambling place at Biarritz, "in violation of the laws of France," that he played there at roulette for credit and not for cash, and that he lost \$17,000 or more. He admits giving the bill of exchange.

Several years were spent in dicker over the alleged gambling debt. Then Boulant placed the matter in the hands of a lawyer. Miss Held, on learning of this, wrote this letter to Boulant, which is a record in the case:

"My Dear Boulant: I learned from Mr. Zeigfeld that you have placed the matter of his gambling debt to you in the hands of an attorney, which is the result of his playing 'banker' at your casino at Biarritz. I am rather surprised at the step you are taking, as you very well know that this money can not be collected through the law, and Mr. Zeigfeld feels that as you are placing the matter in the hands of an attorney there is only one thing for him to do, and that is to fight it."

"As long as you kept the matter in your own hands he considered it a debt of honor, and as soon as he was in a position to do so he would have made a settlement with you; but his unfortunate gambling experience in Europe at your place, where he lost

millions of francs, left his financial matters in such a condition that they were placed in the hands of attorneys here, and he was practically forced into bankruptcy.

"He is doing the best he can and intends to pay every honest debt he owes, but you can't get blood out of a stone, and I advise you abiding the time when Mr. Zeigfeld will be able to make good for any money he may owe you for gambling at your place."

"Mr. Zeigfeld has been greatly harassed over here by attorneys who wish him to give them power of attorney to take such action against the gambling places (which is against the law to give him chips), with the intention of bringing action against each resort in Europe for the benefit of Mr. Zeigfeld's creditors."

"I know that Mr. Zeigfeld wants to do the right thing, irrespective of the great amount of money he lost with you, but you are taking the wrong course. I beg to remain, sincerely yours.—Anna Held."

Several letters were written by Zeigfeld to Boulant, in which the manager sought to gain time. The original letters are in the possession of attorneys for Boulant.

"This suit has been started four years after the affair happened," said Zeigfeld, "because it is reported that I am making some money now, and these people think that I'll be willing to pay over a large amount to avoid notoriety."

"As a matter of fact, I lost \$200,000 that day in that gambling house. It was a game of baccarat and I was the banker. That amount I paid over to the house and they also contended that I owed \$20,000 more. I afterward had reason to believe that I had been robbed."

"Now that the suit has been started, I shall put in a counter claim for \$160,000."

Columbus, O., May 29.—Lawyer Marks, of the Empire "Uncle Tom's Cabin" company was unable to prove to the state health board here that one of the company's "hounds" which bit Little Eva, his daughter, at Carrollton, yesterday, had rabies.

The proprietor of the show, the "hound," his victim and her father appeared before the board, Marks demanding the death of the animal, a meek-eyed pointer.

The board ordered the dog carefully imprisoned for a week. The show in the meantime is tied up. If at the end of the week the dog is still alive, a bill of health will be given.

A Hogarthian Inn Sign.

One of the most humorous inn signs is "The Man Loaded with Mischief," which is found about a mile from Cambridge, England, on the Maddingley road. The original "Mischief" was designed by Hogarth for a public house in Oxford street.

It is needless to say that the sign-board and even the name, have long ago disappeared from the busy London thoroughfare, but the quaint device must have been extensively copied by country sign painters. There is a "Mischief" at Wallingford and a "Load of Mischief" at Norwich. The inn on the Maddingley road, exhibits the sign in its original form. Though the colors are much faded from exposure to the weather, traces of Hogarthian humor can be detected. A man is staggering under the weight of a woman, who is on his back. She is holding a glass of gin in her hand; a chain and padlock are around the man's neck, labeled "Wedlock." On the right hand is the shop of "S. Gripe, Pawnbroker," and a carpenter is just going in to pledge his tools.

"Little Squaw," a delightful cigar.

### India Women's Fine Jewelry.

"It is a rare thing to see the women of India these days wearing any valuable gold jewelry, as they did in years gone by," said Charles Gwatrey of Bombay.

"When I first went to the Orient the women of the upper class commonly owned and wore thick chains and bracelets of the finest gold and of exquisite workmanship. In these times of pinching poverty they are too reduced financially to possess any expensive ornaments and instead of the gold trinkets of their affluent days they would have formerly despised. It is pitiable to witness, as I have, the decline in the fortunes of the people. Abject poverty is seen everywhere, and the gaunt specter of starvation is ever at the side of millions of human beings in that ill-fated land."

## 'SPOUT' ON ALCOHOLISM

TWELFTH INTERNATIONAL CONGRESS TO MEET FROM JULY 18 TO 24.

THE SESSIONS WILL BE HELD IN LONDON

It is Expected to Be Greatest Gathering of Temperance People That the Civilized World Has Ever Known.

By Paul Lambeth.  
Cable to the Democrat-Sentinel.  
(Hearst News Service.)

London, May 29.—Temperance people from all sections of the world will gather in London in July to attend the twelfth international congress on alcoholism, at the Imperial Institute, from July 18 to 24.

The British government has indicated its support of the congress by:

The foreign secretary inviting sixteen foreign governments to appoint official delegates; the colonial secretary inviting all the self-governing colonies to be represented; the home and Indian office being represented in the proceedings, and extending hospitality to the members through an entertainment by the first commissioner of his majesty's works.

There is little doubt that it will be the greatest gathering of the temperance people of the world that has ever been seen.

His royal highness the Duke of Connaught, is to be honorary president of the congress, and will preside at some of the meetings. Among the honorary vice presidents are the lord high chancellor, the archbishops of Canterbury, York and Westminster, Lord Chief Justice Alverstone, Lady Henry Somerset, the Dukes of Fife, Hamilton and Sutherland; Lord Curzon, of Kedleston; Admiral Lord Charles Beresford, Generals Lord Methuen, Ian Hamilton and Chesley; Field Marshal Lord Grenfell and Sir George White, the bishops of London, Peterboro, Hereford, St. Albans, Southwark, Birmingham, Liverpool, Croydon and Kensington; Right Hon. John Burns, D. Lloyd-George, Thomas Burt, Walter Runciman and a hundred or so more noble lords and ladies who have achieved fame in various lines of life.

The demon rum will be discussed during the conference in all its phases and by men and women from all nations of the world who have made a close study of him from all viewpoints.

The range of the discussions is indicated by the tentative program that has just been issued.

The first day of the congress, Monday, July 19, will be given to the routine work of organization and an official reception. On Tuesday, July 20, the real work will begin, and these papers are scheduled for that day:

"Temperance and the National Life," by Miss Cora Stoddard, Boston, U. S. A.

"Temperance Education in the Schools in Various Lands," by Herr J. Conser, Berlin.

"Temperance Effort in Juvenile Societies Throughout the World," by Mme. All Trigg Helms, Helsingfors.

"How to Reach the Student Class," by Mr. Ivar Thulin, Stockholm.

"How to Educate the Teachers," by Herr J. Peterson, Kiel.

Report: "Alcohol in Lobar Pneumonia and Enteric," by Dr. Med. A. Heltscher, Karlsruhe.

"The Influence of Alcohol on Immunity," by Prof. Taav. Laitinen, M. D., Helsingfors.

The program for Wednesday includes these papers:

"Alcohol and Its Effects on the Child," by Dr. Imri Doczi, Budapest.

"Alcohol in its Relation to the Home," by Mrs. Bramwell Booth, London.

"The Legal Protection of Children," by Prof. Herceord, Lausanne.

"Further Research in Continuation of that Reported by Him to the Congress at Stockholm," by Prof. Laitinen, Helsingfors.

"Alcohol and the Efficiency of the National Services," by representatives of the legal, naval, military, postal and railway services.

"Alcohol and Temperature," by

Prof. G. Sims Woodhead, F. R. S., Ed., Cambridge.

"The Effect of Alcohol on Muscular and Mental Fatigue," by Dr. W. H. R. Rivers, F. R. S., Cambridge.

The titles of the other papers scheduled follow:

"The Economic Effects of the Production and Consumption of Alcohol," by the Right Hon. Sir T. P. Whittaker, M. P., London.

"The Alcohol Problem in the Light of Vital Statistics," by Landesversicherungsrat Hansen, Kiel.

"Alcoholism and Industrial Assurance Against Disaster and Invalidity," by Regierungsrat Karl Kogler, Vienna.

"Recent Developments in 'No License' Legislation,"

"International Concert in Protecting Native Races from Alcoholism," by Herr Vieler, Bremen.

"Systems for the Control or Management of the Liquor Traffic,"

"The Resistive Power of the Brain Against Alcohol," by Prof. Clouston, Edinburgh.

"The Effects of Alcohol Upon the Nervous System as Exhibited in Asylum and Hospital Practice," with lantern slides, by Dr. F. W. Mott, London.

"Alcoholism and Crime," by Lieutenant-Colonel A. B. McHardy, C. B., Edinburgh.

"Inebriety and Insanity," by Dr. Legrain, Paris.

"Treatment of the Criminal Inebriate," by Prof. G. Aschaffenburg, Cologne.

"Legislation for the Inebriate," by Dr. R. W. Blanthwaite, London.

From these headings it would seem that the whole range of alcoholic discussion will be covered.

Arrangements are being made for celebrating, if possible, July 25 as Prohibition Sunday by meetings in Hyde park and others of the London parks and churches. It is planned that as many representative speakers as possible from the various countries having delegates at the congress shall make addresses on that date on the subject of world-wide prohibition.

### THE LIVING BEFORE THE DEAD

Common Sense Opinion Clothed in Poetic Language Delivered from the Bench.

One might say that John Driscoll's ears burned while Judge Marean read his decision in court the other day, except that such a statement might be open to misconception. For John has been dead for two years. Just the same, whatever may be the feelings of the deceased about the matter, Judge Marean's common sense ought to come in for a bit of reward.

Driscoll left his estate of a few thousand dollars to the church he attended at Far Rockaway on condition, literally, that his grave be kept green. In his will he commented with a certain austerity upon the common practice of neglecting the green tents beneath which the greater part of mankind's army is bivouacked, and devised his thousands with an eye to making John Driscoll's grave a thing of beauty to the end of time.

But John Driscoll had some collateral relatives, poor and ill-clad, on the verge of starvation. Maybe they never did anything for John Driscoll during his life. Maybe John Driscoll even hated them. But nevertheless they are ill and in need, and that money John Driscoll gave to the grave might keep them in comfort for their few remaining years. No hint through the documents as to their previous relation to John Driscoll.

But Judge Marean held "that it is better that the hungry be fed and the ill-clad be clothed and the fatherless be comforted than that a mound of earth be flowered and gardenized. The revolving seasons may well care for John Driscoll's grave. The winter may cover it with a glittering mantle and the spring adorn it with budding flowers, and the summer weave above it a thick green coverlid, which in its turn the fall may grant a russet hue. Let the law be as merciful to the living as God is to the dead."—Cincinnati Times-Star.

Disastrously Deceived.

Miss Ethel Barrymore described at a luncheon in Boston the way she hoodwinked the reporters over her wedding.

"For one reporter, a pretty girl, I was sorry," said Miss Barrymore. "She told me she was horribly fooled—she lost a two-column story—some ten dollars."

"She said she was almost as disastrously fooled as she had once been at home in her girlhood. They were playing, she said, blindman's buff and she was the blind man. She crept about a bit, caught hold of some one, explored a little with her hands, and cried in triumph:

"Ah-a, I know who this is. This is Uncle Jabez Carpenter. I can feel his funny mustache and his wiry old whiskers."

"But, the girl explained, it wasn't her Uncle Jabez Carpenter at all. It was her rich old Aunt Annie Plummer, who cut her forthwith from her will."

—and more, and there is no doubt that she means to establish college customs and entertain at the White House.

Just 18 is the new daughter of the White House, and she will spend comparatively little time in Washington, for she is now in her sophomore year at Bryn Mawr and will have only such holidays as fall to the lot of other students. Incidentally, Bryn Mawr is not the sort of college where a girl can shirk work or skip classes or lectures, so Miss Helen Taft's trips to Washington will be infrequent and brief.

This daughter of the new president is five feet, eight inches in height, with her mother's slenderness of figure and her father's dimpled chin. She has clear, rather deep blue eyes and a trick of looking right through you with them. Blue is her favorite color, dark blue for street wear, dainty pale colorings for house and evening frocks, and just a touch of blue somewhere if her gown be white.

If Miss Taft has her own way, the tennis courts will not depart from the White House grounds with the passing of the Roosevelt regime, for she is an ardent tennis player. She also swims and rides horseback, and keeps up a good pace when walking with brother or father.

She inherits her father's keen sense of humor, and his philosophic disposition, which is extremely fortunate in a young woman who, as the president's daughter, must face many trying situations and, perhaps, some unnecessary and unjust criticisms. From her mother she inherits extremely good taste in dress, and the fastidious will never be offended by seeing her appear in garish color combinations, wearing jewelry and ornately dressing her hair, as many girls of the day do. Despite the fact that the Tafts have

always been well to do, Miss Helen was taught by her mother to cook and to sew. Her domestic accomplishments are not limited to making fudge and Welsh rabbit in a college study, but she could step into her mother's shoes in an emergency and run the Taft menage without a hitch.

Unquestionably Washington's younger set will gain much by the acquisition of Miss Taft.

### Senators Ride on Own Line.

With the longest list of directors of any rapid-transit line in the United States, the United States Senate Underground Transportation Company began business in Washington the other day. The line is a subway system, and its equipment at this time consists of one automobile. The route is an air line underground between the senate basement and the new senate office building. Every senator is a director, making a list of 92.

Members of the house heard of the transportation facilities of the senate and almost foamed at the mouth. The house has a subway to its office building, but up to this time its members have walked. Originally intended for a short electric line, the subway has not yet been equipped. When representatives learned that the senators were taking "joy rides" to and from the senate and the new building their indignation burst forth in flame.

The automobile used is open at either end and has a place for the operator in the center. It will carry ten thin or eight stout senators.

Librarian Kept Busy.

John J. Boobar, librarian of the house of representatives, is preparing a card index of the Congressional Record. To index the speeches of the Fifty-ninth congress alone required more than 20,000 cards. Mr. Boobar was appointed librarian from Minnesota and brought to his position a remarkable fund of energy. He says that no attaché of congress is worked so hard as to be in danger of nervous prostration from overwork and that he thought the best way to utilize his spare time was by doing something useful.

### Saved Life by Climbing Pole.

Josef Szabo, a railroad inspector of the permanent way, recently had a narrow escape from being eaten by a pack of wolves near Csap, Hungary. He was running down the line on a trolley when he heard the howl of the wolves, and though he worked the trolley as fast as he could, they were soon in close pursuit. He kept them at bay for a time by firing his revolver, but his cartridges were becoming exhausted, and, finally, having momentarily detained the pack by killing one of the brutes, he leaped from his trolley and climbed up a signal post. He remained there for three hours, by which time it had grown dark, and on hearing the approach of a train, he set fire to his handkerchief. This attracted the attention of the driver, who stopped the train, and the official was rescued from his perilous position half frozen to death.

### Monarchs on Their Travels.

When King Edward travels in Europe he occupies his own cars. Except when in actual use the king's railway carriages are stored in Brussels and sent to Cherbourg, Calais or Flushing, according to the royal destination. Handsome and comfortable as the English king's private train is, the German emperor's train so far exceeds it in magnificence that its 11 carriages, furnished with real Gobelin tapestry and marble statuary, took three years to build and cost \$900,000.

### Amputated His Own Toes.

A German tourist has been found by a gendarme lying unconscious in a stable at St. Sulpice, in the Canton of Neuchatel, Switzerland. Then he fainted, and is now in hospital.

When a man is left with a lot of motherless children on his hands, he usually scatters them among his relatives. If it is the woman who is left with fatherless little ones, she keeps them together and earns a living besides. Women develop great energy when left without a man. In fact, all the widows we know are getting along a great deal better than the married women.—Atchison Globe.

## PAIR HAD A "COLD DECK"

TAKEN INTO CUSTODY BY BLUE COATS IN ST. LOUIS FRIDAY AFTERNOON.

## ALSO HAD \$1000 IN CONFEDERATE BILLS

Were Going to the Panama-Yukon-Pacific Exposition at Seattle—Are Only Eight Similar Outfits in Country.

St. Louis, Mo., May 29.—Primed with a flash roll of \$1,000 in Confederate bills and with the most ingenious "cold-deck layout" which has come under the notice of the St. Louis police, William Lawrence and F. Max Knotts, both 27 years old, were arrested at Eighteenth and Locust streets yesterday afternoon by Detectives Joyce and Lardner, of the Central district. They were on their way to Seattle.

The "layon" consists of a broad leather belt, having in place a wire pocket with a wire frame sewed into the opening. Extending from this bag are two strings, one to each foot, which pass beneath each trouser leg and are fastened to the shoes.

The men said that, on arriving in a town, they ascertain the kind of cards used in any local "game" and get a duplicate deck. From this they make a "cold deck" containing winning hands, which they placed in the bag.

When it is the turn of the man holding the "cold deck" outfit to deal he leans over the table, at the same time opening the bag with his foot. The "cold deck" in his hand is thrown into his concealed hand, and the hand which he had dealt himself is thrown into the bag, which is closed by the string from the other foot.

They also had a paste which they smeared on their palms, by means of which they were able to pick up poker chips unseen from the table. They said their outfit cost \$150, is patented and there are only eight of them in the United States.

### Daily Health Hint.

Candies and sweet articles are highly concentrated nourishment that ought, when eaten, to be mixed with coarser food in order to secure proper digestion. This kind of food is more likely to turn acid on a weak stomach than any other, while none so surely tends to produce constipation.

### Do a Thing and Don't Talk.

Just do a thing, and don't talk about it. This is the great secret of success in all enterprises. Talk means discussion; discussion means irritation; irritation means opposition, and opposition means hindrance always, whether you are right or wrong.—Sarah Grand.

### Talent and Tact.

Talent is power, tact is the skill to use it. An engine can whirl a train with 20 cars over the continent at a mile a minute clip, but it could not do this without the motive power of steam—it would stand on the rails, an inert mass of steel and iron. 'Tis the steam that makes the wheels revolve and causes it to rush through the lengths of space.

A curious tree grows in one of the numerous islands which are studied about the Pacific ocean. Its sap is useful as a medicine, but as fuel the wood is worse than useless, being as hard as iron and quite as difficult to burn.

Will Have Little Time for the Frivolities of Washington Society—College Customs to Rule at White House.

When Miss Helen Taft, Bryn Mawr college for women, 1912, watched the inauguration of her father as president of the United States, the college girl came into her own indeed, into the highest social position in America. For the next four years, at least, the college girl will be featured in White House life.

The college girl is bookish yet not a bookworm or blue-stocking. The college girl is grammatical in speech, but she has the jolliest, chummiest jargon of slang that ever rolled from under a pink tongue. The college girl is a tremendous reader, keeping right in touch with all the movements of the day, yet she never neglects outdoor sports. The college girl is a social creature, but she uses society and does not allow society to use her. And above all things she dresses simply and does not marvel her hair.

### The Dr. Camp Medical Co.'s Great Work

Curing Cancer and Tumor without the Knife.

We take pride in presenting to the sufferer the results of our wonderful new discovery, The Modern Americanized European Method of Painless, Bloodless Surgery Treatment for the cure of Cancer, Tumors and Malignant Growths, without operation, or the use of the knife. Beware of cancer; it is the most horrible, painful and lingering ending that humanity has to endure. It already stands second as the cause of all deaths and is said to be rapidly increasing. Beware of any lump spot. Tumor, Sore crack or other unnatural condition that develops and has a tendency to grow or reappear after ordinary remedies have been used. Cancer is a most insidious disease, often causing no inconvenience until the tissues are thoroughly impregnated with its terrible poison. It is like a thief in the night that steals upon the victim and only awaits a favorable opportunity to strike. Too many useful lives have been cut short

MRS. A. BROWN, OF SIOUX CITY, IOWA.

Mrs. Brown, whose photos we show before and after treatment, is a lady 65 years of age, residing in Sioux City, Iowa, at 1210 Eleventh street.

She is a good and noble woman and is greatly beloved by all who know her. We took great interest in her case and feel justly proud of our work, for the reason that she had paid a large sum of money to a Cancer Specialist in St. Louis, for treating her face, but her Cancer came back in about three weeks and her whole system was thoroughly saturated with the poison. The glands of her breast were much involved, accompanied by all the agonizing symptoms of that terrible disease. We were obliged to remove a large portion of her right cheek and it healed up quickly without a blemish. She was immediately placed upon a course of our Bloodless Surgery Specific for the removal of the poison from her system. Her disease has been arrested, her face is well and she is now out of danger. It has now been some six months since she came to us and under date of May 25 she writes us of her condition, expressing herself with that pathos and deep gratitude as only a good woman can, as follows:

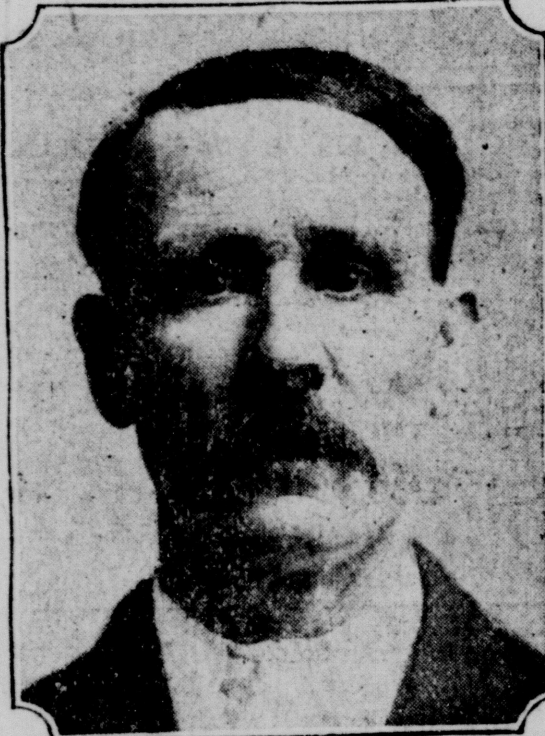

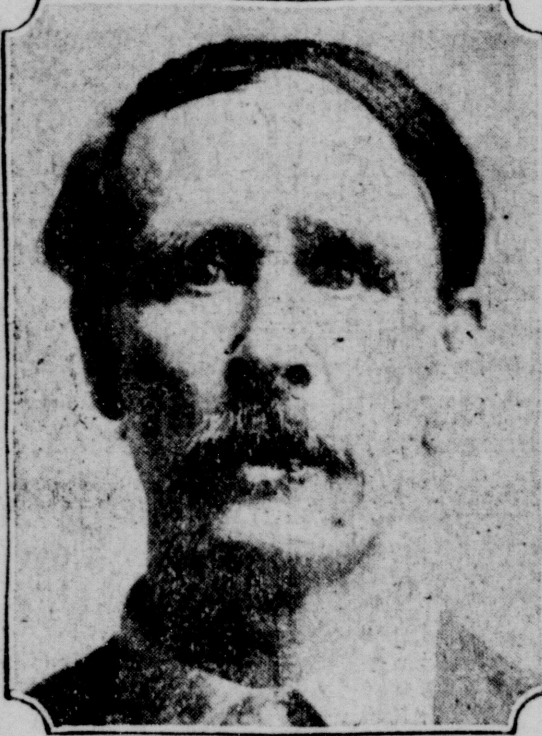

Dr. Camp Medical Co.

Dear Doctor—My face is well and I wish you could see how I look now. Of course I look quite thin, but I am so thankful to you and to God for this healing of my face. I put you in God's hands at the time, so he worked through you while you were treating me. Oh, I am so thankful to you for treating me for cancer. God bless you.

Yours truly,

MRS. A. BROWN.

MR. J. T. WASSON, OF HUGHESVILLE, MO.

Mr. J. T. Wasson, whose photos appear above, is one of Pettis county's solid, substantial gentlemen, whose word is as good as his bond. He is a large land owner and extensively engaged in farming. He came to us some ten months ago suffering with a lip cancer that had affected almost half the lower lip. We immediately applied our cancer cure and in a few days the cancer came out, roots and all. In a short time his lip healed up without a scar. Mr. Wasson feels very thankful for what we have done for him. His own words can best express his gratitude.

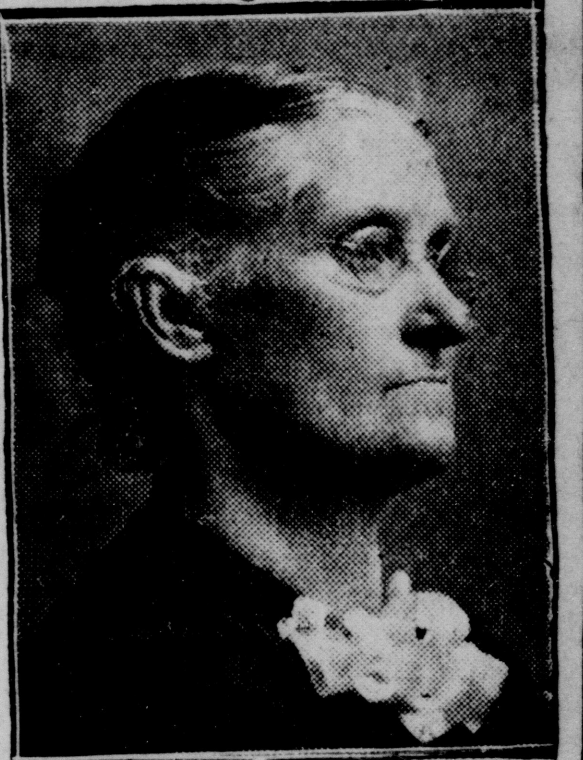

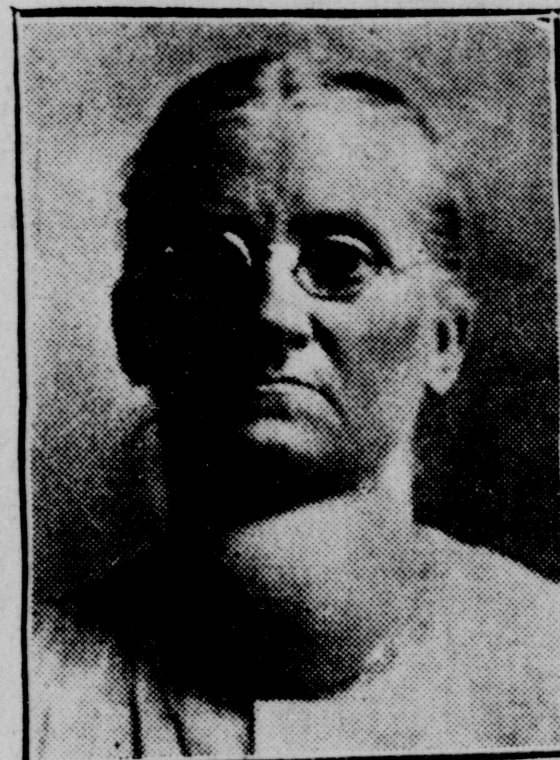

The Dr. Camp Medical Co.

Gentlemen—About a year ago I noticed a small lump on my lower lip. It began to grow and a warty scab came on it. I tried many remedies to heal it up, but it only got worse, and began to have peculiar, darting pains at times. I became alarmed and concluded to seek the best medical aid obtainable, and accordingly placed my case in your care, and when you told me I had a cancer I was indeed worried, but when you told me you could cure it without the use of the knife, I was more hopeful; and now that you have taken it entirely off as you said you could, I am more than thankful. Your Painless Cancer Cure is a most wonderful remedy and I shall never cease to praise what it has done for me. I take great pleasure in recommending you to the confidence of the public as specialists of great skill, and I will gladly answer any inquiry in regard to my case and cure. Yours very truly,

J. T. WASSON.

Goitre Tumor larger than a pint cup disappears in four months while taking our Bloodless Surgery Treatment for such conditions. This case stands without a parallel in medical science and demonstrates beyond all questions the marvelous effects of our Great Discoveries.

The Dr. Camp Medical Co.

Gentlemen—I am a woman 51 years of age, and just think that for over twenty years I have been a constant sufferer from that terrible disease, Goitre Tumor, that grew and grew until it was ten inches one way and nine inches the other, and as large as a pint cup. I was always so mortified because I could never wear a collar and dress like other women. I tried every remedy I could hear of, and many doctors, while I gradually grew worse all the time. I was told an operation was my only chance and that it would probably kill me if I had it cut off. I was in great despair and had given up, but it was certainly a lucky day for me when by chance I saw your advertisement in the papers about your new method of treatment, and I concluded to consult you, and when you told me you could cure me in about four months, I was greatly encouraged; but while I was taking treatment everyone said I was only throwing my money away; that I could never be cured—but I never lost faith and now that you have done what you said you could without any cutting, I am overjoyed. You are master Specialists of great skill and men of your word, and you deserve all the praise a heart overflowing with gratitude can bestow. It will always be a great pleasure for me to answer all letters from all sufferers and tell them about my case and cure. Ever most gratefully yours,

MRS. NANCY RAYL.

## DISOWNS THE CHILDREN

DIVINE SCHENK DENIES BEING FATHER OF THE DEPORTED GIRL'S OFFSPRING.

## CORROBORATES HIM IN WHAT HE SAYS

In Signed Statement Disclaims Improper Relations With Minister—Scandal That Has Caused Much Comment.

St. Louis, Mo., May 29.—Pastor G. F. Schenk, of St. Louis, Mo., by whose domestic relations St. Louis Germans of prominence have been stirred, has made public a refutation of the charges against his name through John A. Sohns, a real estate dealer, of No. 4355A Page boulevard.

In a lengthy statement he denies he ever has had more than a fatherly feeling for Miss Gertrude Wolff, the young woman whose name has been connected with his and whose presence in his home with her two children gave rise to her deportation and to threats of deporting Schenk and his family.

He declares her two children were born while she was absent from his home and that he is not their father. According to Schenk, the girl sailed

from Baltimore last Tuesday on the steamship Maine.

This step, he says, was taken, not because there was anything wrong in the girl's presence in this country, but because she wished to save him from further trouble.

Miss Wolff, before being deported, left a signed declaration, made at Hermann, Mo., May 21, in German, in which she averred that Mr. Schenk's relations with her were improper at no time. She said he was not the father of her children and offered to take them to the old country with her. The girl's statement follows:

"The undersigned, Miss Gertrude Wolff, here declares herself, that Mr. Schenk stands in no way in close relation to her children; that he took the poor children in his care and gave them a father's care; that, especially, the slander that Mr. Schenk was the father of my children is absolutely false. I am at any time ready to take them to my country to my parents, where the best of care will be taken of them, should Mr. and Mrs. Schenk not care to keep them any more."

## HAVANA VICE IS INCREASING

Organized to Stop Spread Since American Evacuation.

Havana, May 29.—There has been a marked increase in immoral performances at the theaters of Havana accompanied by a general spread of

vice and an outbreak of gambling, since the American occupation came to an end.

In order to counteract these tendencies a meeting was held at the residence of Bishop Estrada. Many leading citizens were present, and a society for the prevention of vice was formed.

## REFUSED \$50,000 OFFER

TO ACT "JOAN OF ARC" BEFORE AN UP-TO-DATE MOVING PICTURE CAMERA.

## MAUDE ADAMS, ACTRESS, DECLINED IT

She Passed Up the Proposition Without Scarcely a Moment's Hesitation, As She Is Not in Need of Filthy Lucre.

New York, May 29.—Maude Adams, the actress, has refused an offer of \$50,000 to act "Joan of Arc" before a moving picture camera.

The offer was made in good faith, was guaranteed by a concern that is able to fulfill any obligation it undertakes, and was regarded by the men who submitted the proposition as entirely fair to everybody concerned.

Miss Adams is to produce "Joan of Arc" in the Stadium of Harvard university June 22. But a single performance will be given, and it will be notable, not only because of Miss Adams' participation, but because of the immense spectacle which is being planned.

The moving picture men foresee in the combination of Miss Adams and a production involving the maneuvers of an army of supers a most attractive offering for their patrons.

The pictures of the performance would suffice for an entire evening's entertainment, and the managers of moving picture houses all over the country would be most eager to avail themselves of the films.

Miss Adams, however, is not guided to any great extent in her work by financial considerations. She declined the offer with scarcely a moment's hesitation.

Thursday was the banner day of the chase. It was estimated that four hundred people attended. Meals

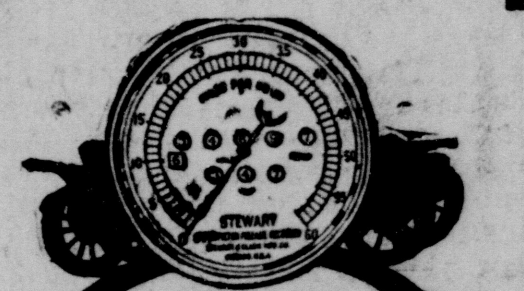

were served at all hours by Blatterman & Rowe, the West Main street caterers, and the universal opinion of everyone was that the chase could not have been better managed.
